WATER RESOURCES ACT 1991
SCHEDULE 10

VARIATION OF CONSENT

2 4 MAR 1992

To: Lilford Limited
Lilford Park
Oundle
Peterborough
PE8 5SG

In pursuance of Schedule 10 of the above Act, **NOTICE** is hereby given that the conditions to which:

Consent No. PR5NF/748
Issued to: Lilford Hall Ltd
Issued by: The Anglian Water Authority
Under: The Rivers (Prevention of Pollution) Acts, 1951-1961
Dated: 20 August 1984
For a discharge of SEWAGE EFFLUENT
from premises at Lilford Hall and Lilford Park, Lilford, Oundle, Peterborough

is subject, are **VARIED** as prescribed below with effect from the date of this Notice.

The conditions to which the aforesaid consent is subject are **REPLACED** by the following conditions:

1. The discharge shall consist solely of fully treated sewage effluent.

2. The discharge shall be made through an outlet at National Grid Reference TL 0292 8445, into the River Nene.

3. The volume discharged shall not exceed 5.0 cubic metres in any period of 24 hours.

4. The discharge shall not contain more than 75 milligrams per litre of biochemical oxygen demand (determined in the presence of 0.5 milligrams per litre of allyl-thiourea after 5 days at $20^{o}C$).

5. The discharge shall at no time contain any matter which will cause the receiving waters to be poisonous or injurious to fish, spawn of fish or food of fish.

6. The discharge shall contain no visible oil or grease.

7. The discharge shall be made through an outlet to the watercourse constructed and maintained so that a direct sample of the discharge may be readily obtained.

The period during which no further notice by virtue of paragraph 6(2) or 6(4)(c) of Schedule 10 of the Water Resources Act 1991 shall be served in respect of the consent, without the written agreement of the discharger, shall be the period ending with the last day of March 1994.

Consent Variation No. PR5NF/748A

Attention is drawn to the notes overleaf.

(Discharges to environmental waters)

NOTES

1. If you consider that any of the conditions subject to which this consent is granted, or that the period specified in the final paragraph of this consent, is unreasonable, you may, by virtue of Section 91 of The Water Resources Act 1991, appeal to the Secretary of State for the Environment.

2. The procedure for appealing is governed by the Control of Pollution (Consents for Discharges etc) (Secretary of State Functions) Regulations 1989 (1989 S. I. No. 1151), to which anyone wishing to appeal should refer. Notice of appeal, together with a statement of the grounds of appeal, must be given in writing to the

Secretary of State
Department of the Environment
Water Environment A Division
Room A404, Romney House
43 Marsham Street
London SW1P 3PY

within three months of notification of the Authority's decision.

3. Any contravention of the conditions subject to which this consent is granted is an offence under the Act and will render the discharger liable to prosecution by the Authority and by any other person.

4. This consent is in respect of water quality considerations only and does not relate to land drainage or other requirements. A consent under the Land Drainage Byelaws may also be required.

5. The granting of Consent under Schedule 10 of the Water Resources Act 1991 does not give any right or permission to discharge to a watercourse where land is not owned by the holder of the Consent.

PR 5 NF
CONSENT NO. 4/748

ANGLIAN WATER AUTHORITY

RIVERS (PREVENTION OF POLLUTION) ACTS 1951-61

CONDITIONAL CONSENT

in respect of a discharge of sewage effluent from the sewage treatment works serving Lilford Hall and Lilford Park.

To: Lilford Hall Ltd
Lilford
Oundle
Peterborough

The ANGLIAN WATER AUTHORITY pursuant to Section 7 of the Rivers (Prevention of Pollution) Act 1951 hereby grant consent to LILFORD HALL LIMITED for

(i) the bringing into use of a new outlet for the discharge of sewage effluent, and

(ii) the making of a new discharge of sewage effluent,

as described in Part I of the Schedule hereto, subject to the conditions relating respectively thereto as prescribed in Part II of that Schedule.

For the purposes of this consent the following expressions shall have the meanings respectively assigned to them:-

"Fully treated sewage effluent" means sewage effluent which has been treated by primary sedimentation, biological filtration and secondary sedimentation at Lilford Hall Sewage Treatment Works before discharge to the stream.

"Dry weather" shall be deemed to exist in relation to this consent when the rainfall recorded on the relevant day and on the seven days previous thereto by the rain gauge at Barnwell (Meteriological Office Station No. 162992) does not exceed 0.25 millimetres on any one day as certified by the person who maintains that rain gauge.

"Rainfall recorded on the relevant day" means the rainfall recorded by the said rain gauge for the day on which a sample of sewage effluent was taken for the purpose of this consent.

The terms of this consent will not, without the consent in writing of Lilford Hall Limited, or their successors, be altered before the expiration of the period ending with the first day of December, 1986.

GIVEN on behalf of the Anglian Water Authority, this twentieth day of August 1984.

THE SCHEDULE

PART I

(i) Description of Outlet

A 230 millimetre diameter pipe discharging to the River Nene at National Grid Reference TL 0292 8445.

(ii) Description of Discharges

A discharge of sewage effluent from the sewage treatment works serving Lilford Hall and Lilford Park, Lilford, Oundle, Peterborough.

PART II

Conditions Prescribed

(i) For the Outlet

The outlet shall only be used for the discharge of sewage effluent as described in Part I of the Schedule.

(ii) For the Discharge

In dry weather the volume of fully treated sewage effluent discharged shall not exceed 26 cubic metres in any period of twenty four hours.

The discharge of fully treated sewage effluent shall not in the presence of allyl thiourea take up more than 75 milligrammes per litre of dissolved oxygen over 5 days at 20 degrees centigrade.
