Introductory note

This introductory note does not form a part of the notice

The following notice gives notice of the variation of an environmental permit.

This notice varies the Financial Provision mechanism and condition within the permit. The operator's registered office address has been updated in line with the registered address on Companies House.

The schedules specify the changes made to the original permit.

We consider that in reaching our decision to vary the permit we have taken into account all relevant considerations and legal requirements and that the permit will ensure at least an equivalent level of protection to human health and the quality of the environment.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.
