Introductory note

This introductory note does not form a part of the notice

The following notice gives notice of the variation of an environmental permit.

The maximum throughput of inert waste per year is reduced by 3000 tonnes and a maximum of 3000 tonnes of cement bonded asbestos waste per year has been added to the permitted waste types/quantities (i.e. waste code 17 06 05*).

The status log has also been updated to reflect the operator changing of name.

The schedules specify the changes made to the original permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.
