Introductory note

This introductory note does not form a part of the notice

The following notice gives notice of the variation of an environmental permit.

This is an administrative variation to amend the installation permit boundary to coincide with the operator's waste operation permit boundary (ref. EPR/PP3892CL). This is to allow the operator to amend operational storage locations on an ongoing basis to effectively manage the protection of the environment.

The schedules specify the changes made to the existing permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.
