

OUTGOING

Licence sent to:-

Ref. W.D.L. No. 277/S

PERMIT

COUNTY OF SOMERSET
CONTROL OF POLLUTION ACT, 1974 (PART 1)

THE COUNTY COUNCIL OF SOMERSET, being the WASTE DISPOSAL AUTHORITY, for the said Administrative County, HEREBY GRANTS A LICENCE for the deposit of controlled waste pursuant to the provisions of Part I of the Control of Pollution Act, 1974 and of the Collection and Disposal of Waste Regulations, 1988 to the application of E J Farr & Co., Buckland Road, Pen Mill Trading Estate, Yeovil in accordance with the following particulars:-

Ordnance Survey reference/NGR	ST. 574 167
Position and Nature of Proposal	Scrap yard for the processing and storage of scrap metal, at Buckland Road, Pen Mill Trading Estate, Yeovil.

The Licence is granted subject to the conditions set out on the attached sheet.

Dated: 19 FEB 1991

County Surveyor

County Hall,
Taunton.

IT IS IMPORTANT THAT YOU READ ALL THE ATTACHED NOTES

Site Plan and Type of Waste

1. This licence relates only to that area edged in red on the attached plan.
2. The materials permitted on site are defined by this licence as:-
 - (i) Scrap metal in solid, sheet or tube form. This includes ferrous and non ferrous metal items.
 - (ii) Non ferrous metal swarfs, turnings and granules.
 - (iii) Batteries from vehicles.
3. No wastes allowed in Condition 2 above are permitted if they are mixed or contaminated with hazardous concentrations of any noxious, poisonous or polluting substances, excepting the acid solutions contained within vehicle batteries (Condition 2(iii) above).
4. No items contaminated with polychlorinated bi-phenyls or asbestos shall be accepted at the site.

Working Plan and Infra Structure

5. A working plan will be produced for the consideration and approval of the Licensing Authority. This shall give details of:-
 - (i) Storage and sorting areas.
 - (ii) Drainage arrangements for the site.
 - (iii) Plant being used on site.
 - (iv) Repairing or improving hardstanding surfaces.
 - (v) Fencing around the site.
 - (vi) Floodlighting arrangements for working in hours of darkness.
 - (vii) The storage and operational arrangements for the site.
 - (viii) A schedule for emptying the skip containing wastes arising from the receipt of materials and where it is taken to.
6. The processing of scrap metal shall consist of sorting, baling and shearing. No other processes are to take place without prior approval of the Licensing Authority.
7. Gates and fencing around the site shall be maintained to prevent unauthorised access to the site.
8. Hardstanding surfaces shall be inspected regularly and kept in a good state of repair.

Measures to deal with Vehicle Batteries

9. The drainage of acid from vehicle batteries is prohibited on site.

10. Vehicle batteries shall be stacked upright on pallets, in a tidy and orderly manner. No batteries shall be left overhanging the pallet or in any position likely to overturn.
11. A supply of soda ash and/or limestone shall be kept on site to deal with any pollution hazard caused by residual liquid from vehicle batteries.

Site Identification Board

12. A site identification board of durable material and finish shall be erected at the entrance to the site. This shall be maintained in a legible form and shall display the following information:-

Name

Address

Tel

Licensed under COPA 1974 by SCC, County Hall, Taunton, Somerset

WDL 277/S

Drainage Arrangements

13. The surface water drains situated within the site shall be used for the draining of rainwater from the facility only.
14. No polluting matter shall be allowed to enter sewers or surface water drains. (See Note (v)).

Site Operations

15. Metal or metal fragments shall not be deposited on to land or the public highway outside the site boundary.
16. Any materials accepted at the site which have accidentally been deposited on land outside the licensed area shall be immediately picked up and returned to within the licensed area.
17. If any unacceptable waste is delivered or left at the facility, such waste shall be removed from the site as soon as practicable and in any case within one working day of receipt and taken to a suitable licensed site for disposal. A written record shall be kept and the Licensing Authority shall be informed forthwith of any such occasion.
A Code of Practice for dealing with such wastes shall be forwarded to the Licensing Authority in writing for their approval.
18. The facility shall be manned and supervised during operating hours and during all maintenance operations. Supervisors must be able to identify the general categories of waste allowed by this licence.
19. The quantities to be accepted of each of those wastes specified in Condition 2 of this Licence shall not exceed the limits of the operational and storage arrangements made for each of these wastes. The quantity being stored must at no time affect the safe running of the facility. Details of the storage and operational arrangements for the various types of waste shall be provided in the working plan (Condition 5).

20. Wastes arising from the receipt of materials at the site, (cardboard, wood etc) shall be stored separately from other materials on site, and removed to a suitably licensed site when required. Details shall be provided in the working plan (Condition 5).
21. Any members of the general public on site must be supervised.
22. Precautions shall be taken to deal effectively with any vermin on the site, details shall be forwarded to the licensing authority for their approval.
23. A written record shall be kept of the types and quantities of materials processed at the facility. This shall include:-

ferrous metals	tonnes/months
non-ferrous metals	tonnes/month
batteries	tonnes/month
waste sent to landfill	tonnes/month

This record shall be kept and be available for inspection at any reasonable time. Information contained in this record shall be forwarded to the Licensing Authority on request.

24. No waste material shall be burnt within the boundaries of the site, and an outbreak of fire shall be regarded as an emergency and immediate action shall be taken to extinguish it. All outbreaks of fire shall be notified forthwith to the Licensing Authority.
25. Any temporary cessation of operations for a period in excess of three months shall be notified to the Licensing Authority.
26. Not less than 14 days' notice shall be given to the Licensing Authority of the date on which operations are to recommence in the event of a temporary cessation for a period in excess of three months.
27. The terms of the licence shall be made known to any person who is given responsibility for the management or control of the facility and a copy of these conditions shall be displayed at a prominent point within the facility.

Notes:

- (i) In the event of an accident resulting in the death or serious bodily injury of any person as a consequence of operations on the site the operator shall contact the Health and Safety Executive.
- (ii) Regular inspections will be undertaken by Staff of the Licensing Authority, without prior notice to check and ensure full compliance with the site licence.
- (iii) The licence does not stop the requirement of the operator to be registered under the Scrap Metal Dealers Act 1964.
- (iv) This licence will only have effect if a valid planning consent is in force.
- (v) The licence holder is advised to contact the National Rivers Authority, Wessex Region and Wessex Water PLC regarding the disposal of polluted water down the sewers or surface water drains.

(1) This licence does not purport to convey any approval or consent under any provision(s) other than Part I of the Control of Pollution Act, 1974. Your attention is drawn in particular to the consents that may be required by Section 108 and Schedule 12 of the Water Act 1989 (whereby the consent of the National Rivers Authority may be required for the discharge of Trade and Sewage effluent etc. into a water course or the sea); Section 2 of the Dumping at Sea Act 1974 (the consent of the Minister of Agriculture, Fisheries and Food may be required to the dumping of substances of articles both in and outside the United Kingdom Waters); Section 6 of the Radioactive Substances Act 1960 (if radioactive wastes or substances are to be deposited); and to the Control of Pollution (Special Waste) Regulations 1980, the Health and Safety at Work Act 1974, and other Planning, Environmental Health and Nuisance legislation. Compliance with this Licence does not remove a licence holders responsibility under other legislation.

RIGHTS OF APPEAL

(2) If an applicant/licence holder is aggrieved by the decision of the Waste Disposal Authority

- (a) in refusing to grant a disposal licence
- (b) in refusing to modify a disposal licence
- (c) in granting a licence subject to conditions
- (d) in modifying conditions specified in a disposal licence
- (e) in revoking a disposal licence

he may appeal to the Secretary of State in accordance with Section 10 of the Control of Pollution Act, 1974. Appeals must be notified within 6 months of the date of this notice to the Secretary, Department of the Environment Waste Disposal Division, (NNW2), Room A2.22, Romney House, 43 Marsham Street, London SW1P 3PY.

The Secretary of State has power to allow a longer period for the giving of notice of an appeal but he will not normally be prepared to exercise this power unless there are special circumstances which excuse the delay in giving notice of an appeal.

FOR DECISIONS UNDER HEADINGS (d) or (e) ONLY

Where a notice giving this authority's decision to modify or revoke a disposal licence includes a statement that for the purpose of preventing pollution of water or danger to public health Section 10(2) of the Control of Pollution Act should not apply to the decision, the notification of an appeal against the decision will not of itself render the decision ineffective pending determination of the appeal. This decision does/does not* contain such a statement.

If you consider that such a statement has been unreasonably included in the notice of decision you may apply, under Section 10(3) of the Control of Pollution Act, to the Secretary of State to determine whether the authority's action was unreasonable or not, (the address to write to is as given above). If the Secretary of State determines that the authority acted unreasonably in including such a statement, the authority's decision will become ineffective while an appeal is pending and you will be entitled to recover compensation from the authority in respect of any loss you have suffered in consequence of the statement. Any dispute as to your entitlement to compensation or its amount shall be determined by arbitration.
