Far Leys Poultry Unit

Permit number EPR/EP3304SW

Introductory note

This introductory note does not form a part of the notice.

The following notice gives notice of the transfer of an environmental permit to a new operator (the transferee).

This permit is being transferred to Moy Park Limited from Mr Robert Clough and Mr John Clough.

Description of the Installation

Far Leys Farm is situated approximately 2.5km west of Tuxford in Nottinghamshire and centred on National Grid Reference SK 7101 7119. The installation comprises six poultry houses with a combined capacity for 360,000 broilers places with 7.5 cycles per annum on an all in all out basis.

The site also has a single 1.2 MW thermal input capacity biomass boiler, which combusts a combination of Grade A waste wood chip (chipped wood pallets) and virgin wood chip. Heating is also achieved through a closed loop ground source heating system that provides under floor heating in all poultry houses.

There are no Special Areas of Conservation, Special Protection Areas or Ramsar Sites within 5km of the installation. There is one Site of Special Scientific Interest within 5km of the installation, eight Local Wildlife Sites and one Ancient Woodland within 2km.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.

Status log of the permit		
Description	Date	Comments
Application EPR/RP3436DP/A001	Duly made 26/02/2018	Application for an intensive farming poultry installation permit.
