

Notice of variation with introductory note

The Environmental Permitting (England & Wales) Regulations 2016

Multi - Agg Limited
Shellingford Quarry
Stanford Road
Stanford in the Vale
Faringdon
Oxfordshire
SN7 8HE

Variation application number

EPR/EB3839AA/V002

Permit number

EPR/EB3839AA

Shellingford Quarry

Permit number EPR/EB3839AA

Introductory note

This introductory note does not form a part of the notice

The following notice gives notice of the variation of an environmental permit.

This variation modifies the allowed operations to include soil washing.

The schedules specify the changes made to the original permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.

Status log of the permit		
Description	Date	Comments
Application received	Duly made 11/05/2012	Application for treatment of waste to produce soil, soil substitutes and aggregate.
Permit determined EAWML 103858	17/07/2012	Permit issued to Multi - Agg Limited
Application EPR/EB3839AA/V002	Duly made 03/05/2019	Application to vary the permit
Additional Information received	10/07/19 12/07/19 18/07/19	Response to Schedule 5 notice dated 05/06/2019
Variation determined EPR/EB3839AA	10/09/19	Varied permit issued.

End of introductory note

Notice of variation

The Environmental Permitting (England and Wales) Regulations 2016

The Environment Agency in exercise of its powers under regulation 20 of the Environmental Permitting (England and Wales) Regulations 2016 varies

Permit number

EPR/EB3839AA

Issued to

Multi - Agg Limited ("the operator")

whose registered office is

The Upper Lime Kiln Works

Bytham Road

Ogbourne St George

Marlborough

Wiltshire

SN8 1TD

company registration number 01870649

to operate a regulated facility at

Shellingford Quarry

Stanford Road

Stanford in the Vale

Faringdon

Oxfordshire

SN7 8HE

to the extent set out in the schedules.

The notice shall take effect from 10/09/2019

Name	Date
Derek Franklin	10/09/2019

Authorised on behalf of the Environment Agency

Schedule 1 – conditions to be deleted

None

Schedule 2 – conditions to be amended

Table S1.1 activities is amended as a result of the application made by the operator

Table S1.1 activities	
R13: Storage of waste pending any of the operations numbered R1 to R12 (excluding temporary storage, pending collection, on the site where it is produced)	Treatment of wastes listed in tables S2.1 and S2.2 consisting only of sorting, separation, screening, crushing, washing and blending of waste for recovery as a soil, soil substitute or aggregate.
R3: Recycling/reclamation of organic substances which are not used as solvents	Secure storage of wastes listed in tables S2.1 and S2.2 pending treatment.
R5: Recycling/reclamation of other inorganic compounds	Storage of wastes listed in table S2.1 shall not exceed 10,000 tonnes in total at any one time.
	All other wastes stored shall not exceed 40,000 tonnes in total at any one time.
	No more than 75,000 tonnes of waste shall be treated per year.

Schedule 3 – conditions to be added

Table S1.2 Pre-operational measures for future development is added as a result of the application made by the operator

Table S1.2 Pre-operational measures for future development		
Reference	Operation	Pre-operational measures
PO1	The use of the soil washing plant, and the soil washing activity, as identified in the limits of activities within Table S1.1 of the permit.	The Operator shall submit to the Environment Agency a Construction Quality Assurance (CQA) Plan and CQA Validation Report for the process water storage lagoon and obtain the Environment Agency's written approval to them. The CQA Validation Report shall demonstrate that the final "as built" construction and engineering details of the lagoon meets the required standards as set in <i>CIRIA C736 - Containment Systems for the Prevention of Pollution - secondary, tertiary and other measures for industrial and commercial premises</i> or other relevant industry standard. The CQA Validation Report shall provide a comprehensive record of the construction and shall include, where relevant: • The results of all testing required by the CQA Plan; • Plans showing the location of all tests; • "As-built" plans and sections of the lagoon; • Copies of the site engineer's daily records; • Records of any problems or non-compliances and the solution applied; • Validation by a qualified person that all of the construction has been carried out in accordance with the CQA Plan.

Amended plan attached
