Introductory note

This introductory note does not form a part of the notice

The following notice gives notice of the variation of an environmental permit.

This Admin Variation corrects the description of Activity A1 for the Scheduled Activity S5.6 A (1)(a) within Table S1.1 of the Environmental Permit to include the recovery code R13 allowing the storage of hazardous waste for recovery. R13 is the storage of wastes pending any of the operations numbered R1 to R12 (excluding temporary storage, pending collection, on the site where it is produced). The schedules specify the changes made to the original permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.
