Introductory note

This introductory note does not form a part of the notice

The following notice gives notice of the variation of an environmental permit.

This variation increases the maximum waste throughput of the facility from 250 tonnes/year to 5,000 tonnes/year. There will be no increase in the amount of waste treated or stored on site at any one time. The operator will utilise the site treatment capacity for a greater time.

The schedules specify the changes made to the original permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.
