Introductory note

This introductory note does not form a part of the notice

The following notice gives notice of the variation of an environmental permit.

This variation removes the current Standard Rules SR2008No2 5kte (Household, commercial and industrial waste transfer station (no building). In place the site boundary has been extended and waste types to be accepted total 40,000 tonnes per annum (tpa) with 5 tpa being non-hazardous bio degradable waste and 35,000tpa non hazardous inert waste. Permitted wastes do not include hazardous wastes.

The variation enables the operation to incorporate land adjacent to the site currently being operated under a paragraph 13 exemption by the same operator.

The schedules specify the changes made to the original permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.
