

LINCOLNSHIRE COUNTY COUNCIL
CONTROL OF POLLUTION ACT 1974
 LICENCE NO. L104

This Disposal Licence is issued by Lincolnshire County Council as Waste Disposal Authority under the provisions of Section 5 of the Control of Pollution Act 1974 to ...Messrs S.A.Dennis, S.J.Dennis, and E.J.Dennis, Holly Tree Farm, Croft Bank, Skegness, Lincs:.....

.....
 (hereinafter referred to as the Licence Holder) subject to the attached conditions number 1 to 32.... and authorises the Licence Holder to transfer waste on part of OS Plot No. 7237, Holly Tree Farm, Croft Bank, Skegness, Lincs.....

.....
 This licence is issued solely to comply with Part I of the Control of Pollution Act 1974 and does not relieve the Licence Holder in any way of the duty to ensure, at all times, compliance with the Health and Safety at Work etc. Act 1974, the Radioactive Substances Act 1960, and any environmental health, nuisance, planning or other legislation which may be in force.

Signed .. 
 Director of Highways and Planning

Dated .. *19th April* 1990

NOTE: See overleaf for Rights of Appeal

This licence is issued on the understanding that the information supplied in the application is correct to the best of the applicant's knowledge.

Should such information be found to be incorrect or any variation in circumstances occur affecting such information the County Council reserve the right to terminate the licence.

4. Any proposed change to the design of the transfer bay or method of operation from that shown and described in the Working Plan shall be notified in writing to the Waste Disposal Authority.
5. No liquid or sludge waste shall be brought onto the site.
6. Tanks used for the storage of liquid shall be surrounded by bunds sufficient to contain 110 per cent of the tank capacity. They shall be of a type and construction suitable for the liquids they contain and shall be labelled to show their contents.
7. No deposit shall take place until a site identification board of durable material and finish has been displayed at the site entrance, showing the name of the site, the name, address and telephone number of the operator, the hours when the site is open, and the address and telephone number of this Waste Disposal Authority.
8. If the site is to be permanently manned a site control office of a satisfactory standard which shall afford toilet, washing and eating facilities and contain adequate first aid equipment shall be provided for the site operative(s). The location of the office shall be marked on the working plan.
9. No deposit shall take place unless subsidiary site roads have been provided. These shall be constructed of compacted quarry waste and/or hardcore. They shall be graded to prevent water standing and shall be maintained free of pot holes.
10. Precautions shall be taken to prevent fouling of the highway as a result of waste disposal activities by mud or other waste being carried onto the public highway by vehicles using the site. Any such material which does foul the highway shall be removed immediately.
11. Site roads shall be sprayed with water in dry weather to suppress dust when necessary.
12. No operation shall take place during the hours of darkness unless suitable lighting has been provided. The hours of darkness are those covered by statutory lighting-up times published by the Science and Engineering Research Council.
13. The normal hours of operation of the site shall be

Monday to Friday	0730 - 1800 hours
Saturday	0730 - 1300 hours
Sunday	0600 - 1200 hours

No tipping or related operation shall take place on Public Holidays or outside these hours except with the written approval of the Waste Disposal Authority. Condition 12 may reduce these hours of operation at certain times of the year.

25. No waste material shall be burnt within the boundaries of the site and a fire at the site shall be regarded as an emergency and immediate action shall be taken to extinguish it. All outbreaks of fires shall be notified forthwith to the Waste Disposal Authority Head Office.
26. Precautions shall be taken to deal effectively with any vermin or insects on site and a written record of the treatment undertaken shall be kept on site for inspection.
27. Empty skips shall only be parked in a specifically designated area of the site and precautions shall be taken to ensure that no waste is allowed to accumulate or adhere within them.
28. A record shall be kept of the types, source and quantities of waste deposited at the site and the type, quantity and destination of all wastes leaving the site. This record shall be kept available for inspection for a period of at least one year from the date of deposit. A summary of this record shall be forwarded to the Waste Disposal Authority Head Office at quarterly intervals in the prescribed form to arrive within fourteen days of the end each quarterly period to which it refers.
29. The terms of the licence shall be made known to any person who is given responsibility for the management or control of the site. A copy of the licence shall be displayed at the site control office. The licence holder shall ensure that all persons authorised to be on the site are made aware of any conditions of the licence relevant to them. A copy of the Working Plan shall be available for inspection at the site control office.
30. Any temporary cessation of operations for a period in excess of three months shall be notified to the Waste Disposal Authority.
31. Not less than 14 days notice shall be given to the Waste Disposal Authority of the date on which waste transfer is to commence or recommence (following a temporary cessation for a period in excess of three months).
32. Following construction of the facility and before commencement of operations the licence holder shall notify the Waste Disposal Authority and confirm that all specifications have been met.

NOTE:

These conditions are attached to Licence L104 dated 19 April 1990
