### Introductory note

***This introductory note does not form a part of the permit***

The following notice, which is issued pursuant to regulation 20 and Part 1 of Schedule 5 of the Environmental Permitting (England and Wales) Regulations 2010 S.I. 2010 No. 675 (the Regulations), gives notice of the variation of an environmental permit to operate a regulated facility.

The landfill currently accepts healthcare wastes under code 18 01 04. Department of Health guidance on the safe management of healthcare wastes advises that low grade clinical wastes from non-healthcare sources should be classified as 20 01 99. An Agency TED record of the issue (Waste 1026) documents this discrepancy and advises on the use of EWC code 20 01 99 for low grade clinical waste from non-healthcare sources and advises an appropriate wording to be used in conjunction with this waste code. This variation is to include within this permit this specific waste code together with it's appropriate wording.

Schedule 1 of this notice lists any deleted conditions, Schedule 2 lists any amended conditions, Schedule 3 lists any conditions that have been added and Schedule 4 shows any changes to the plan.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.
