Nature of Facility. Scrap Metal Merchants - Vehicle Dismantlers and Waste Transfer Station

In accordance with the provisions of the Control of Pollution Act 1974, the Merseyside Waste Disposal Authority **HEREBY LICENCE** Mr. M.W. Groves

to operate the above facility, subject to the conditions set out in the attached schedule.

The licence is effective from the date hereon and will remain in full force and effect until the completion of the facility (if a land-fill site) or for the life-time of the facility (if a waste treatment plant) unless the licence is modified, revoked or cancelled.

Signed

Waste Disposal Engineer

Date

30 April 1991

NOTHING IN THIS LICENCE MAY BE CONSTRUED AS ABSOLVING THE WASTE DISPOSAL FACILITY OPERATOR OR HIS MANAGEMENT & OPERATIVES FROM THEIR OBLIGATIONS UNDER THE HEALTH AND SAFETY AT WORK, etc., ACT 1974.

SCHEDULE OF CONDITIONS

General

1. This licence shall only apply to the scrap metal yard and waste transfer station at Unit 10, Orchard Works, Knowsley Industrial Park North, Kirkby, Merseyside as outlined in orange on the attached drawings KS/1 and KS/2.
2. The site shall be licensed only while there is an appropriate current valid planning consent.
3. The site shall be made secure from intrusion. To this end the boundary wall and gates on the east side of the unit shall be re-instated within 3 months of the issue of this licence.
4. (a) All operations at the site shall be carried out in accordance with the conditions of this licence and the attached working plan.
(b) No changes shall be made to the working plan without the prior written consent of the Waste Disposal Authority.
5. (a) All temporary cessations of operations which require the transfer or diversion of waste to a site elsewhere shall be notified forthwith to the Waste Disposal Authority.
(b) Notice shall be given to the Waste Disposal Authority of the date on which operations are to recommence.
6. (a) A site identification board of durable construction and finish shall be displayed at the site entrance.
(b) The board shall show the name, address and telephone numbers of the facility together with the address and telephone number of the Waste Disposal Authority.
7. A site control office shall be provided at the site.
8. This schedule of conditions and the current working plan shall be displayed in the site office and shall be made known to all personnel at the site.

Wastes

9. The types of wastes permitted to be deposited on the site shall be as follows:
 - (a) Solid Construction Industry Waste.
 - (b) Ferrous and non-ferrous scrap metals.
 - (c) Scrap vehicles.
 - (d) White goods.
10. The following wastes shall not be permitted to be deposited on the site:
 - (a) Liquids and sludges.
 - (b) Malodorous wastes.
 - (c) Putrescible wastes.
 - (d) Clinical wastes.
 - (e) Commercial wastes
 - (f) Household wastes other than wastes included under 9(d)
 - (g) Special Wastes as defined in the Control of Pollution (Special Waste) Regulation 1980 but excluding vehicle batteries (including acid content) and oils and fuels associated with scrap vehicles.
 - (h) Construction industry waste containing more than 10% by volume of hard bonded asbestos in any one load.

Operational Conditions

11. The activities to which this licence relates shall not be carried out in such a manner as to cause pollution of water, or present a danger to public health or become detrimental to the local amenities.
12.
 - (a) The site shall be adequately manned and equipped.
 - (b) The site shall be supervised at all operating times by a person whose name shall be notified in writing to the Waste Disposal Authority. This person shall be adequately trained and shall be made aware of his duties and responsibilities which shall include:-
 - (i) checking the nature and quantities of wastes delivered to the site;
 - (ii) ensuring that the wastes deposited are permissible within the terms of this licence;
 - (iii) ensuring that accurate and up to date records are maintained and that such monitoring as is necessary is carried out;

(iv) ensuring that the site is operated in a safe manner and in conformity with the operational/working plan and the conditions of this licence.

13. The permitted wastes shall only be stored in the licensed area outlined in orange on drawing KS/1.

14. The maximum quantity of wastes other than scrap vehicles stored on the site shall be 300 cubic metres and this shall not be piled more than 2.5 metres high.

Scrap vehicles shall not be stacked more than 2 vehicles high.

15. Adequate clearway shall be kept for vehicular movement within the site.

16. (a) A record shall be kept of the sources, types and quantities of wastes received and despatched from the site together with their destination. The records shall be available for inspection by authorised officers of the Waste Disposal Authority at reasonable times.

(b) A monthly return of the types and quantities of wastes received at the site shall be made to the Waste Disposal Authority on the forms provided. The return shall be sent to the Authority not later than the fifteenth day of the following month.

(c) Where necessary wastes received at and removed from the site shall be notified and recorded in accordance with the requirements of the Control of Pollution (Special Waste) Regulations 1980.

17. Except in an emergency site operations shall be restricted to:

Monday to Friday	0730 to 1830 hours
Saturdays	0730 to 1300 hours
Sundays & Bank Holidays	Closed

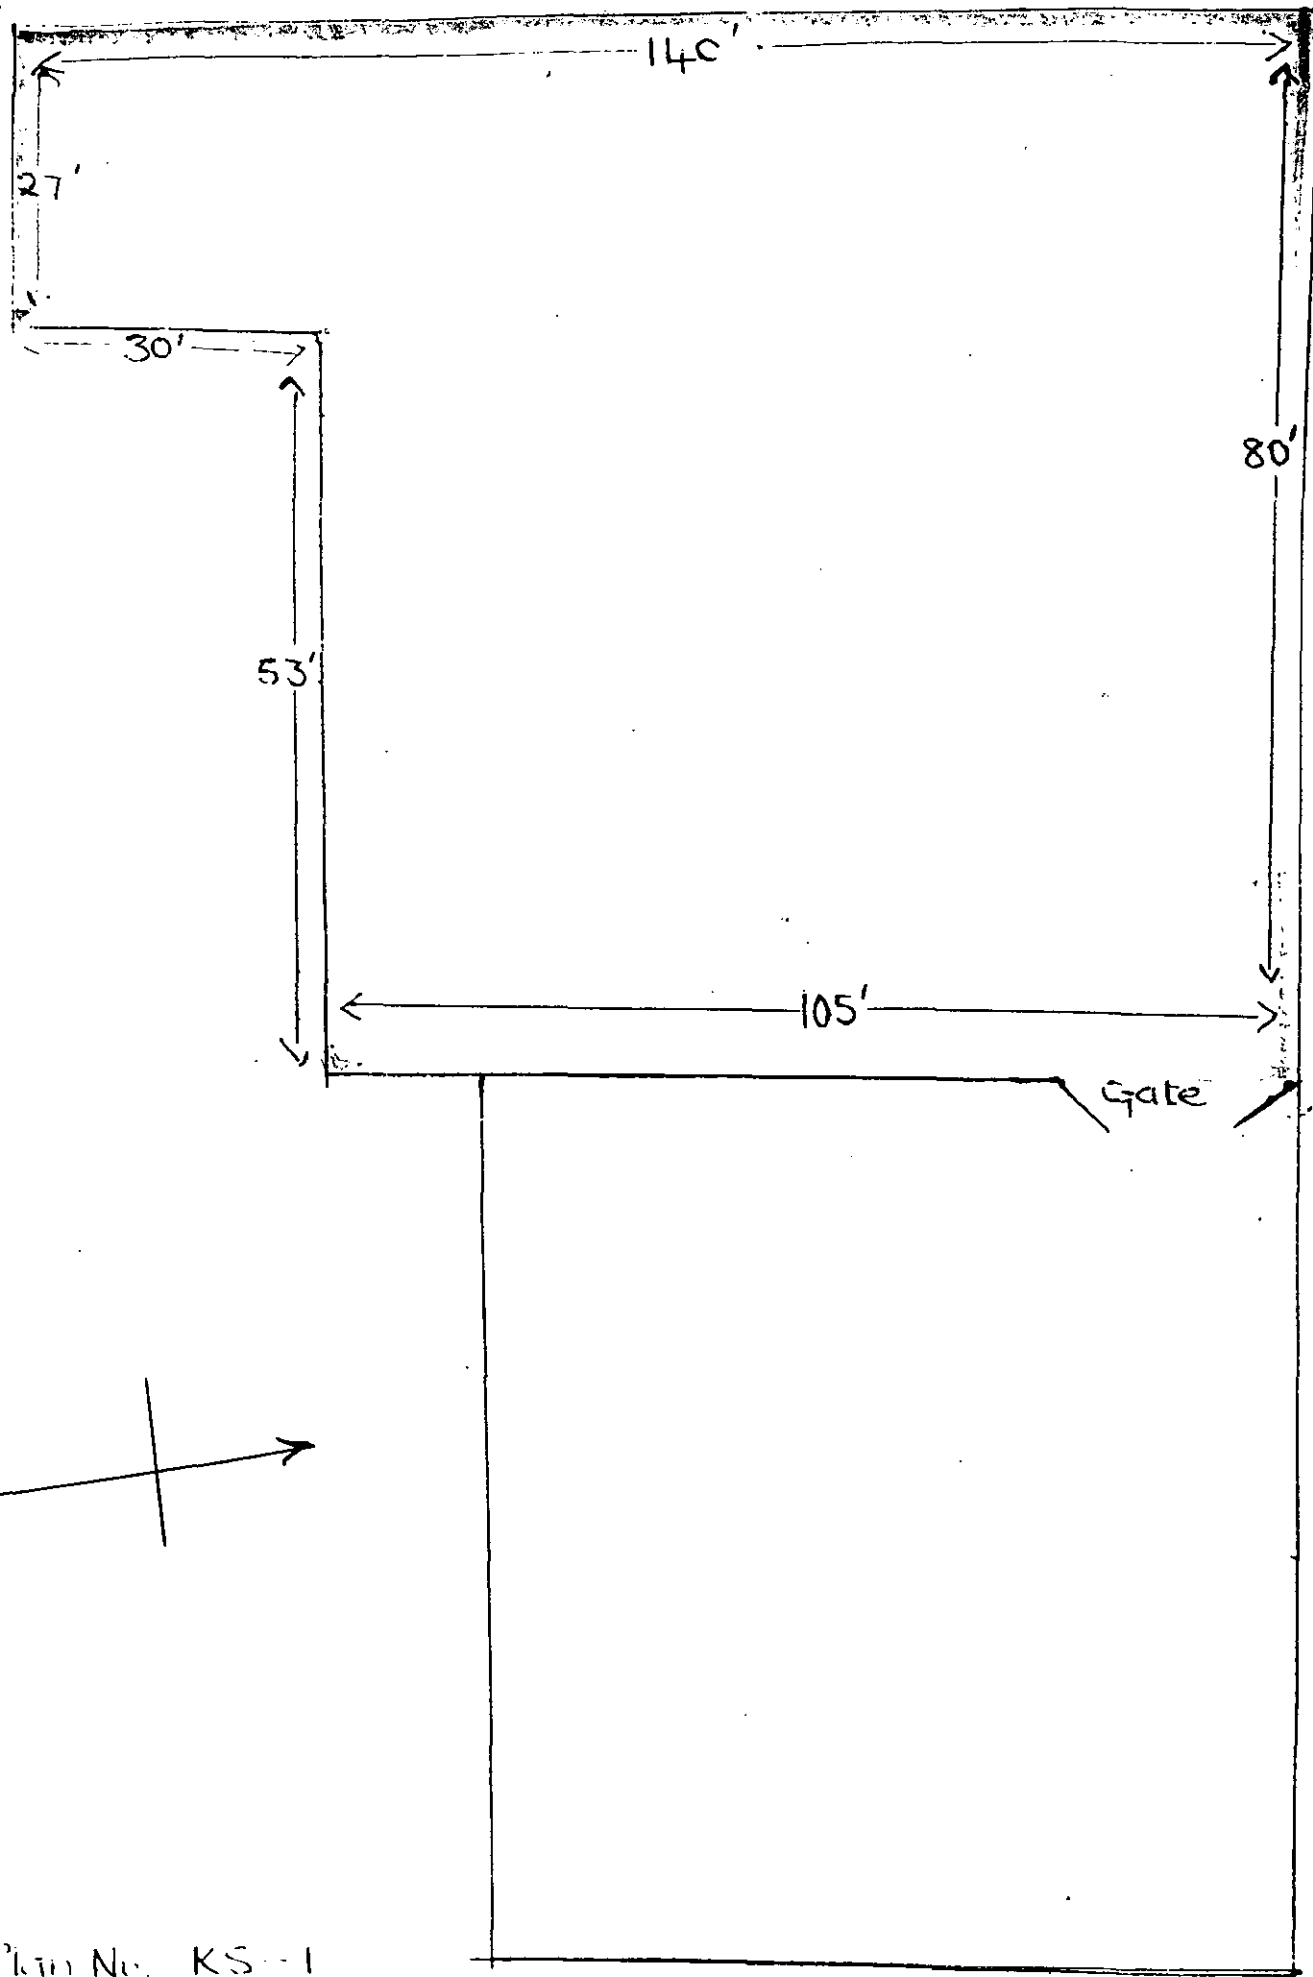

and any emergencies shall be reported forthwith to the Waste Disposal Authority.

18. Notwithstanding condition 17 no operations shall take place after sunset or before sunrise unless adequate lighting for safe working is provided.

19. (a) The site shall be made secure from unauthorised access by the maintenance of the existing walls and gates (see also condition 2).

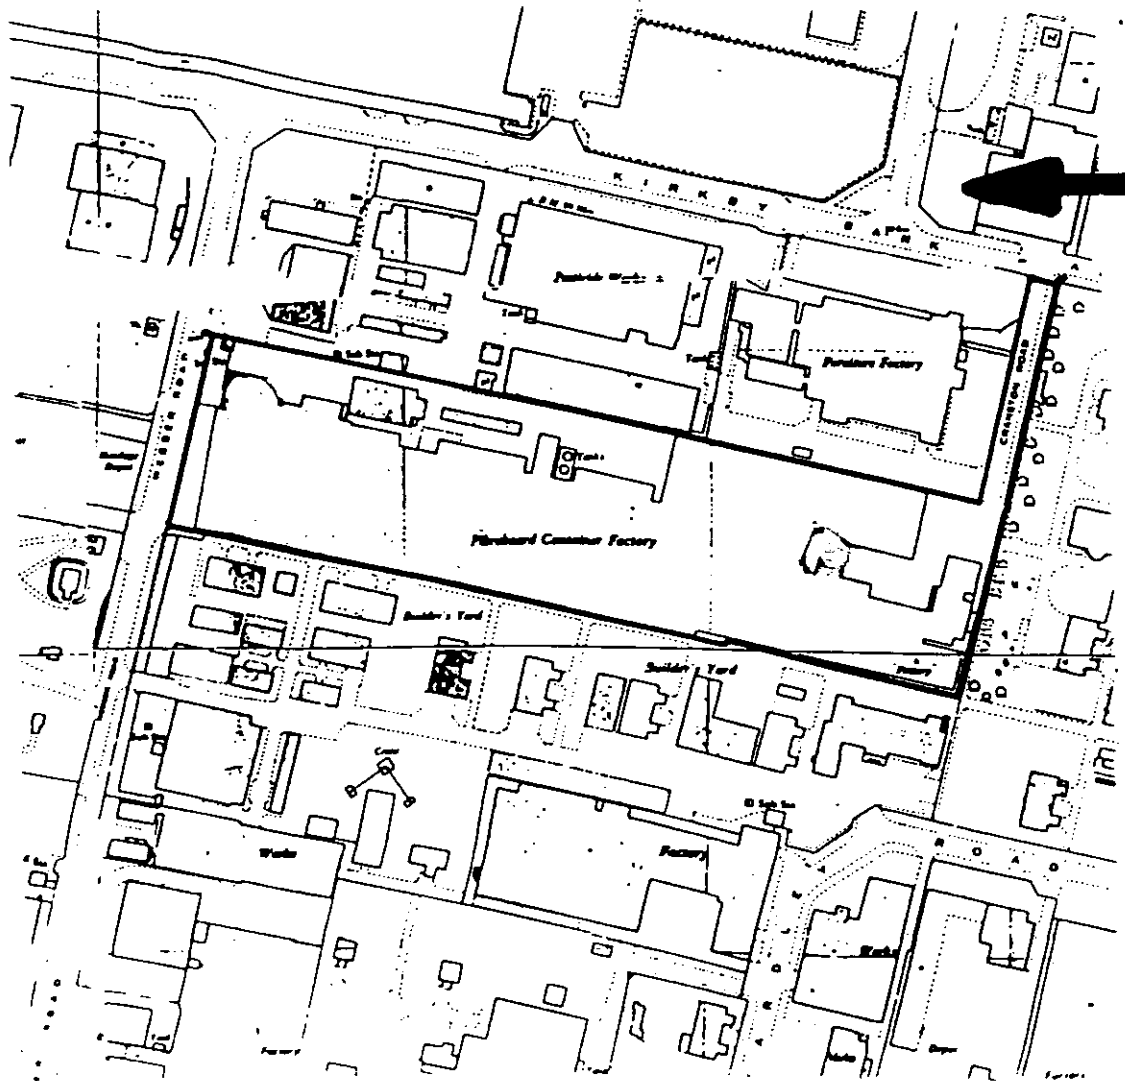

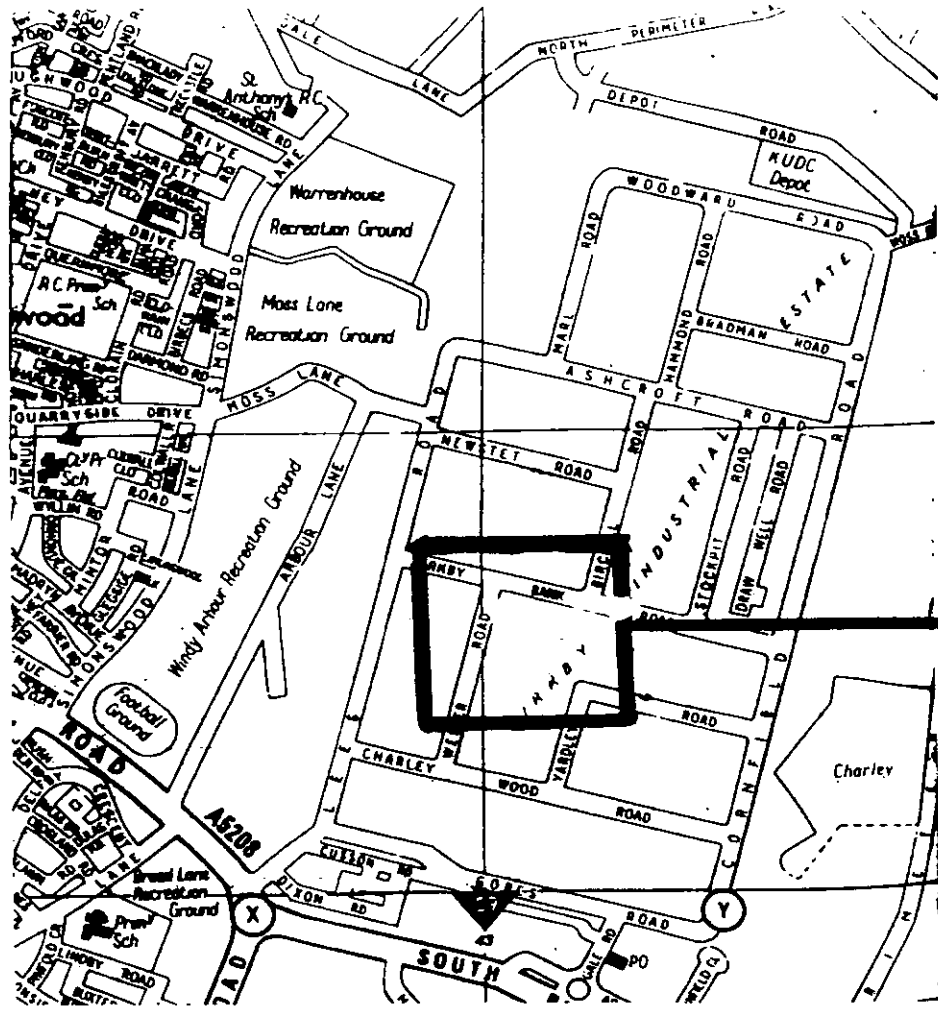

- (b) The site gates shall be locked at all times when the site is unmanned.
- 20. The concrete base of the unit shall be maintained in a good state of repair.
- 21. (a) No fire or cable burning shall be allowed on site and any outbreak of fire shall be treated as an emergency and steps taken to extinguish it including calling the Fire Brigade if appropriate.
(b) The circumstances of any fire on the site shall be reported forthwith to the Waste Disposal Authority.
- 22. Primary fire fighting equipment shall be made available at all times on the site.
- 23. Adequate provisions shall be made to prevent mud or debris being tracked out on to the highway.
- 24. Batteries shall be stored in an upright position in a secure container fitted with a lid and care shall be taken to prevent the spillage of acid onto the ground. In the event of a spillage of acid the acid shall be neutralised with an excess of soda ash and the residue disposed of at a licensed landfill.
- 25. Care shall be taken to prevent the spillage of oil and coolants from vehicle engines, gearboxes and axles on to the ground. Where such parts are stored in skips, exposed to the weather, the skips shall be covered with a tarpaulin. In the event of a spillage of oil the oil shall be absorbed using earth or sand and the residue disposed of at a licensed landfill.
- 26. No contaminated water, oils, acids or fuels shall be discharged to any river, surface water drainage system, underground strata or foul sewer without the prior consent of the National Rivers Authority and/or North West Water plc.
- 27. Necessary steps to control vermin shall be taken if required including baiting.
- 28. The site shall be kept in a tidy condition.
 - (a) Precautions shall be taken to prevent litter being carried from the site.
 - (b) Waste inadvertently deposited on the public highway, or litter blown onto the public highway or adjacent land or premises shall be collected and returned forthwith to the licensed site.

29. Any plant used on the site shall be fitted with an effective silencer and maintained in a serviceable condition.

ENVIRONMENTAL PROTECTION ACT 1990

Section 37

Notice of Modification of Waste Management Licence Condition(s)

Mr M. W. Groves
t/a Kirkby skips
8 Lindby Close
Southdene
Kirkby
L32 6SH

WHEREAS on 30th April 1991 you were granted a Waste Management Licence by the Merseyside Waste Disposal Authority (Licence No.324/01) relating to Scrap Metal Merchants - Vehicle Dismantlers and Waste Transfer Station, Unit 10, Orchard Works, Knowsley Industrial Park North, Kirkby, Merseyside. subject to the conditions set out therein

NOTICE is **HEREBY GIVEN** that the Merseyside Waste Disposal Authority (hereafter called "The Authority") modifies the said conditions as follows:-

The following condition shall be added to the licence :

Condition 30

All waste storage at the site shall be restricted to the area designated on the attached plan reference no. KS/324/A, and no waste shall be stored closer than 5 metres to the northern boundary wall.

Such modification shall take effect on 23rd January 1995 at 08.00 am.

DATED

14th January 1995

(Signed).....

(Designation) Assistant Director Regulation

Merseyside Waste Disposal Authority
4th Floor, Steers House, Canning Place, Liverpool, L1 8JW.

NB.-The person served with this notice may appeal against the Authority's decision to the secretary of State within six months or such period as the Secretary of State may allow. (See notes overleaf.)

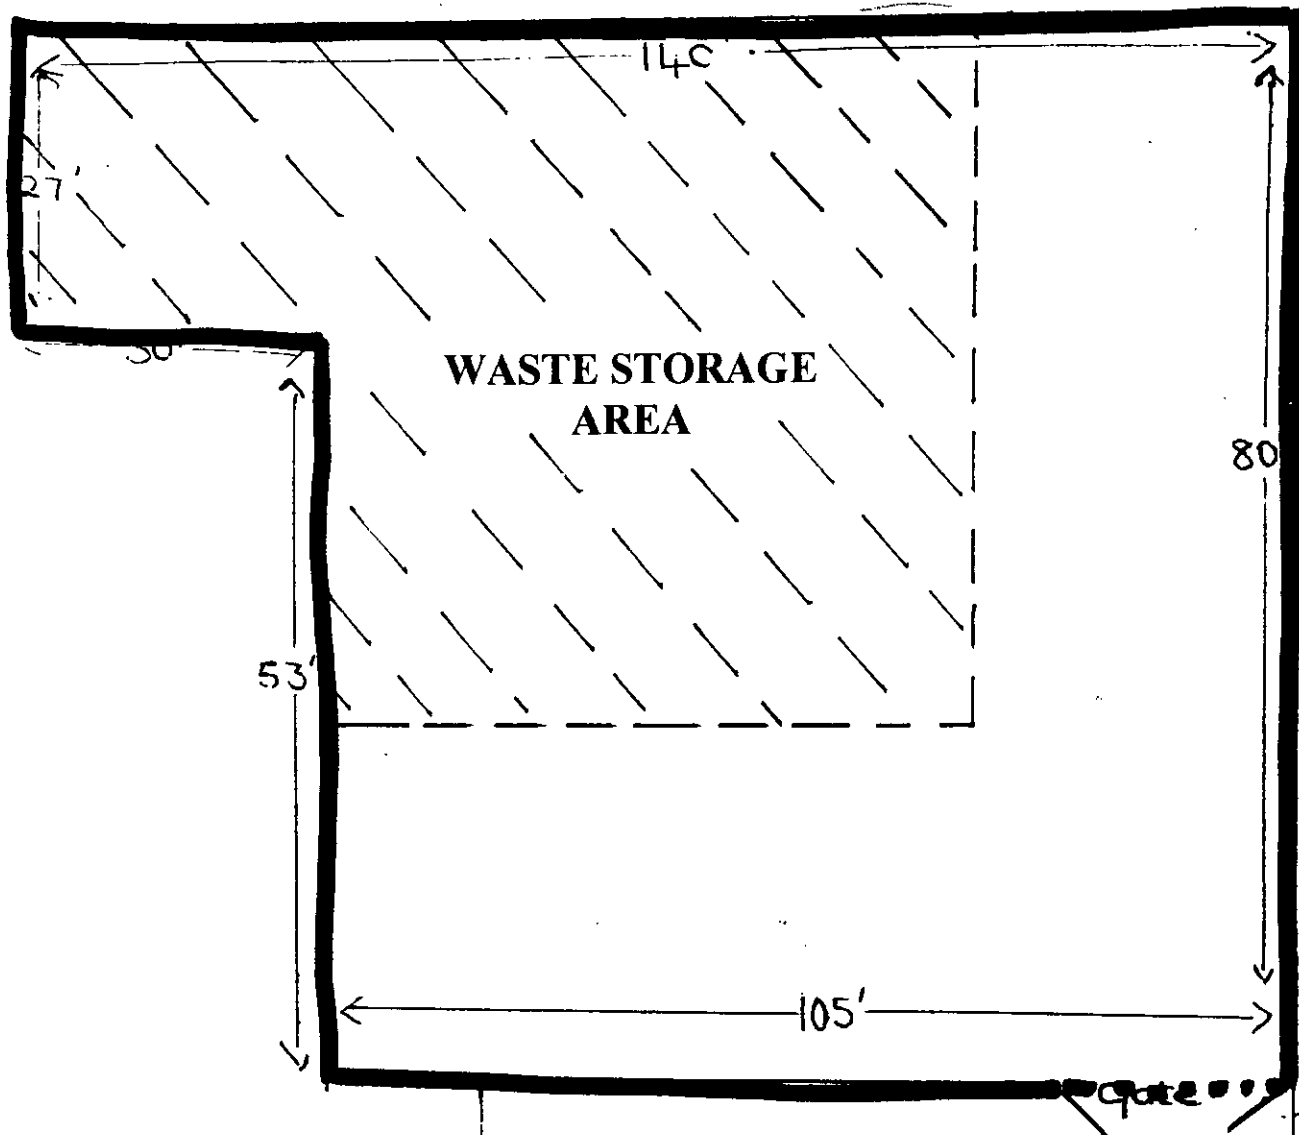

NOTES

Appeals

If a licence holder is aggrieved by the decision of the Waste Disposal Authority ("the Authority") in modifying conditions specified in a waste management licence he may appeal to the Secretary of State in accordance with Section 43 of the Environmental Protection Act 1990. Appeals must be notified within 6 months of the date of this notice or within such time as allowed by the Secretary of State for the Environment. A copy of a form on which notice of appeal may be given is available from The Planning Inspectorate, Room 10/13, Tollgate House, Houlton Street, Bristol, BS10 9DJ. The notice must be accompanied by a statement of the grounds on which the appeal is made, a copy of the waste management licence, a copy of any correspondence or other documents relevant to the appeal and a statement indicating whether the appellant wishes the appeal to be in the form of a hearing or to be determined on the basis of written representations. The appellant shall send to the Authority a copy of the notice of appeal, including the statement of grounds and a copy of any other document submitted by him with the notice of appeal.

Where a notice giving the Authority's decision to modify conditions specified in a waste management licence includes a statement that for the purpose of preventing or minimising pollution of the environment or harm to human health Section 43(4) of the Environmental Protection Act 1990 should not apply to the decision, the notification of an appeal will not of itself render the decision ineffective pending determination of the appeal.

If you consider that such a statement has been unreasonably included in the notice of decision you may apply, under Section 43 (7) of the Environmental Protection Act 1990, to the Secretary of State to determine whether the Authority's action was unreasonable, (the address to write to is as given above). If the Secretary of State determines that the Authority acted unreasonably in including such a statement, the Authority's decision will become ineffective while an appeal is pending and you will be entitled to recover compensation from the Authority in respect of any loss you have suffered in consequence of the statement. Any dispute as to your entitlement to compensation or its amount shall be determined by arbitration.
