Introductory note

This introductory note does not form a part of the notice

The following notice gives notice of the variation of an environmental permit.

We have varied this permit to add additional waste codes to the list of permitted wastes accepted at the facility and to increase the annual throughput. The variation also includes an extension to the permit boundary.

The schedules specify the changes made to the original permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.
