Introductory note

This introductory note does not form a part of the notice

The following notice gives notice of the surrender in part of an environmental permit.

This partial surrender removes part of the land from the current permit, EPR/AP3996ZY which is for a household waste transfer station. This removed land is located to the south of the permitted area, used principally for the storage of inert soils, construction rubble and wood waste on hardstanding. The land will remain operational and will be incorporated into an adjacent waste operation by extending their permitted area on to this surrendered land. This partial surrender does not remove any activities from the permit.

The permit is operated by an organisation of individuals and this surrender notice updates the current permit to reflect this. The previous modification to the licence in 2008 was issued to 'Taperell Environmental'. This notice hereby updates the licence holder to Mr Christopher Taperell and Mr Stewart Taperell.

Any changes made as a result of the part surrender are set out in the schedules.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.
