

GLOUCESTERSHIRE COUNTY COUNCIL
CONTROL OF POLLUTION ACT 1974

OUTGOING-1

DISPOSAL LICENCE No. 80/358

GLOUCESTERSHIRE COUNTY COUNCIL being the Licensing Authority, hereby grant a DISPOSAL LICENCE in respect of waste disposal operations subject to the attached Schedule of Conditions. This Disposal Licence expressly incorporates the agreed working plan numbered 101- 3 , working drawing no. WD/1 the details submitted by the applicant with his application and the attached guidance notes.

This Disposal Licence is issued in accordance with Part 1, Control of Pollution Act, 1974, to:—

Cheltenham Borough Council
Municipal Offices, The Promenade, Cheltenham, Glos

This Disposal Licence relates to the carrying on of waste disposal operations on land known as
Central Depot, Swindon Road, Cheltenham, Glos
(Ordnance Survey Grid Reference 936 240 OS)

The Disposal Licence shall remain in force until revoked by the Waste Disposal Authority. Notwithstanding the aforementioned provisions for revocation by the Waste Disposal Authority this Disposal Licence shall only remain in force whilst planning permission exists for the licensed operations.

The Waste Disposal Authority may if appropriate modify the conditions specified in the Disposal Licence. The Waste Disposal Authority may take appropriate action to revoke the Disposal Licence for non-compliance with any part thereof. The Licence holder must ensure that all other relevant legislation is observed. Attention is particularly drawn to the Health and Safety at Work etc., Act, 1974, the Radioactive Substances Act, 1960 and associated planning, water protection and environmental health legislation.

NOTES

Rights of Appeal

If a licence holder is aggrieved by the decision of the Waste Disposal Authority in granting a licence subject to conditions he may appeal to the Secretary of State in accordance with Section 10 of the Control of Pollution Act 1974. Appeals must be notified within 6 months of the date of this notice to The Secretary of State, Department of the Environment, Waste Disposal Division, Queen Anne's Chambers, 28 Broadway, London SW1H 9JU. The Secretary of State has power to allow a longer period for the giving of notice of an appeal, but he will not normally be prepared to exercise this power unless there are special circumstances which excuse the delay in giving notice of an appeal.

LICENCE NO: 80/358

CONTROL OF POLLUTION ACT 1974

DISPOSAL LICENCE

CIVIC AMENITIES SITE, CENTRAL DEPOT, SWINDON ROAD, CHELTENHAM

SCHEDULE OF CONDITIONS

Standard

Condition No.

1. The licence holder shall comply with the conditions of this licence and the terms of the licence shall be made known to any person who is given responsibility for the management, control or use of the site.
2. No deposit of waste shall take place until the following appropriate conditions have been complied with.
3. Operations shall be conducted in accordance with the attached, agreed working plan and operational statement. These documents must include a Gas management plan [unless otherwise agreed by the Environmental Health Unit (Waste Disposal Authority)], and details of any existing or known prospective development within 0.25km of the site and should indicate the location and specifications of boundaries reception and control facilities disposal process, vehicle circulation routes, landscaping and screening, pollution control measures the site of all streams, drains or watercourses, and the position of any Statutory Undertaker's apparatus within the site curtilage.

Standard

Condition No.

4. Any proposed change in the actual conduct of operations from that agreed shall be notified to the Waste Regulation Authority at least one month before the proposed change is implemented.
5. Materials deposited within the site shall be restricted to those identified in number 6 below at a rate not exceeding in total 30 tonnes per day.
6. Only the following wastes may be deposited at the site:
 - a general household waste
 - b garden waste
 - c materials for recycling - from a domestic source
8. Should the Licensee or his employees be in doubt regarding the suitability of any waste material brought to this site for disposal, it will be the Licensee's responsibility to contact the Waste Regulation Authority for guidance, prior to accepting the material onto the site.
9. Any unauthorised deposit of material on the site shall be notified at once to the Waste Regulation Authority and the material kept available for inspection.
10. A suitable reception area must be provided away from the tipping area. Unless specifically agreed in writing by the Waste Regulation Authority suitable accommodation will also be provided adjacent to this area to assist site control and for the safe keeping of site records which must include a Health and Safety Statement relating to the site operations.

All such accommodation should conform to planning, building, fire and health and safety requirements and be provided with heat, light and means of communication.

Standard

Condition No.

11. Road and access points shall be constructed in accordance with the working plan and shall be maintained to the satisfaction of the Waste Disposal Authority.
12. In dry weather site roads and other operational areas shall, if necessary, be sprayed with water to suppress dust.
- 13a. Any tanks used for the storage of liquid within the site shall be surrounded by a bund capable of impounding the capacity of the largest tank plus 10%.
 - b. Any tank shall be of a type and construction suitable for the liquid it contains and shall be labelled to show its contents.
 - c. The drain valves of any tank or any bund surrounding a tank within the site shall be kept closed and locked when not in use.
 - d) Any bunded area shall be maintained and shall be kept dry to the satisfaction of the Waste Disposal Authority.
17. No waste material shall be burnt within the boundaries of the site. A fire at the site shall be regarded as an emergency and immediate action shall be taken to extinguish it. All outbreaks of fire shall be notified forthwith to the Waste Disposal Authority.

No tyres or similar articles are to be tipped unless the method of tipping etc: has been agreed in writing by the Waste Disposal Authority.

18. In order to keep the site in a generally tidy condition, any loose waste or litter which may be lying on the site or within 50 metres of the site entrance on the public highway shall be gathered and properly deposited. If the Waste Disposal Authority consider that litter screens would be appropriate, then these must be used.

Standard

Condition No.

19. Precautions shall be taken to deal effectively with any vermin or insects on the site.
20. Records shall be kept of the types and quantities of waste deposited, including the names of the Haulage Contractor and the place of origin of the waste. These records shall be kept available for inspection during normal working periods.
24. Any temporary cessation of operations for a period in excess of three months shall be notified to the Waste Disposal Authority.
25. Not less than 14 days notice shall be given to the Waste Disposal Authority of the date on which landfilling is to recommence in the event of a temporary cessation for a period in excess of three months.
27. Fencing shall be provided and maintained to impede unauthorised access and prevent accidental access to the site. A gate or similar barrier shall be erected at the site entrance and shall be kept locked in the closed position at all times when the site is closed or unattended.
28. A site identification board of durable material and finish shall be displayed at the entrance, showing the hours when the site is open and giving the name of the site, the name, address and telephone number of the operator and of the appropriate Waste Disposal Authority.
36. Waste shall be delivered to and removed from the facility only on weekdays between the hours of 07.30 and 19.30, and Saturdays between the hours of 07.30 and 16.00. On Sundays waste shall be delivered to, or removed from the facility only between the hours of 09.00 and 13.00 hours.

Standard

Condition No.

53. The Licence Holder will allow access at all times to officers of the Waste Disposal authority in order that they may inspect/monitor the works or take samples of the Leachate/Methane/or any other substance within the site boundary.
54. Unless specifically agreed by the Waste Disposal Authority there shall be a minimum of two operatives on site whilst any deposit of waste or recycling activity is taking place.
55. Any costs incurred in complying with these conditions shall be borne by the licence holder.
56. No waste shall be deposited within 5 metres of a watercourse.
57. No discharge should be made from the site to a watercourse or soakaway without the prior consent of the National Rivers Authority.

Non Standard Conditions

51. Trap gullies and an oil/water interceptor should be installed to prevent solids and oils in surface water drainage, gaining access via the public sewer to any surface watercourse.
52. Any interceptor should be inspected on a monthly basis and records kept of any such inspection. Records should also be kept of dates when the interceptor is emptied.
