FIRST SCHEDULE

Description of Premises

Address: Kenyon St. Works, Kenyon St, Ramsbottom, Bury.

Type of Waste Handling Facility: Transfer Station/Baling

SECOND SCHEDULE

CONDITIONS TO BE ATTACHED TO LICENCE NO. RD/LIC/255/82 FOR IRWELL STREET METAL CO. LTD., TRANSFER STATION AT KENYON STREET WORKS, RAMSBOTTOM, BURY.

1. The method of operation of the facility, as described in the working plan, shall not be altered other than in accordance with the conditions below.

The working plan may from time to time be varied and any such variation shall be deemed to be incorporated in the working plan submitted to the Waste Disposal Authority but no such variation shall be carried into effect unless at least one month's prior notice (or lesser period if agreed with the Waste Disposal Authority) in writing of the proposed variation has been given to the Waste Disposal Authority.

The provisions of the working plan submitted to the Waste Disposal Authority and of any variation deemed to be incorporated in that plan shall be carried out.

NOTE: For the purposes of this licence, the working plan consists of the completed application form, the statement outlining the method of operation, any plans submitted and any modifications made by the above procedure. In the case of any proposals contained in the working plan being contradictory to the licence conditions, the conditions shall prevail.

Any notification which the licence holder is required to make under these conditions shall be made to:-

The County Engineer,
Industrial Waste Section,
County Engineer's Department,
P.O. Box 433,
County Hall,
Piccadilly Gardens,
Manchester,
M60 3HT

Telephone Number 061-247-3309

2. Only the types of waste listed below shall be deposited and shall be limited to -

- | | | | |
|-----|---------------------------------|---|-----------------|
| (a) | Domestic and Commercial wastes |) | |
| | (Waste Code 01); |) | |
| | |) | 150 Tonnes/day. |
| (b) | Non-Hazardous Industrial wastes |) | |
| | (Waste Codes 10 & 11). |) | |

Continued.....

3. Samples of any waste entering the site or undergoing disposal on the site and samples of any gaseous, liquid or particulate emissions from the site may be taken by or under the direction of the Waste Disposal Authority.

Site personnel shall provide any reasonable assistance and facilities to the Waste Disposal Officers on request.

4. A site control office shall be provided and shall be adequately equipped to allow the requirements of Condition Numbers 5, & 6 to be carried out.

5. A site record shall be kept of those categories of waste listed in condition number 2 which have been deposited on or removed from the site.

The site record shall be made available for inspection by the Waste Disposal Authority during working hours.

A statement enumerating the quantities of waste deposited or removed from the site during each year ending 31st December shall be forwarded to the Waste Disposal Authority within one month after that date.

Such statements shall quantify the amounts of waste in each category listed in condition number 2 deposited on or removed from the site during each calendar month.

No waste shall be deposited on the site in the event of failure to comply with the above requirement until the statement is submitted to the satisfaction of the Waste Disposal Authority.

6. The terms of the site licence shall be made known to any person who is given responsibility for the management or control of the site and a copy of the licence shall be displayed at the site control office in a prominent position.

7. The site shall only be open for the receipt of waste during the hours:-

0800-1800 Monday to Friday
0800-1300 Saturday.

8. Operational instructions shall be kept available and shall be displayed at the facility.

9. Adequate management and technical supervision shall be provided at the plant throughout operating hours.

Continued.....

10. Wastes and residues shall not be allowed to accumulate on the site unnecessarily.

11. Not less frequently than once a day any loose waste which may be lying on the site shall be gathered and disposed of in such a way as to keep the site tidy.

12. Precautions shall be taken to deal effectively with any vermin and insects on the site.

13. Adequate precautions shall be taken to ensure that waste which becomes wind blown is retained within the curtilage of the site. Any waste that is inadvertently blown from the site shall be recovered immediately.

14. No waste material shall be burnt within the boundaries of the site and a fire at the site shall be regarded as an emergency and immediate action shall be taken to extinguish it. All outbreaks of fire shall be notified forthwith to the disposal authority in accordance with the terms of condition number 1.
