The following notice gives notice of the variation of an environmental permit.

The applicant has applied to vary the permit to include the following:

Amend the waste recovery plan to remove the need to excavate material from adjacent fields and replace with imported inert waste, add EWC codes 17 05 04 and 19 12 12 to the waste recovery list of waste codes (Table S2.2) and add 'washing' to the limits of activities table for the treatment activity of the permit (Ref A1).

The schedules specify the changes made to the original permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.
