

CONTROL OF POLLUTION ACT 1974  
PART I

**WASTE DISPOSAL LICENCE**

THE \* WEST YORKSHIRE WASTE MANAGEMENT JOINT COMMITTEE  
HEREBY GRANT a Waste Disposal Licence, pursuant to an application dated  
13 October 1988, in respect of the following:

Full name and address of licence holder	Morley Waste Traders Ltd, Kaystan Ironworks, Albert Road, Morley Leeds LS27 8RU
Full name and address of local representative (if any) of licence holder	
Location of site to which this licence relates	Kaystan Ironworks, Albert Road, Morley, Leeds 27, as detailed in Condition 1, N.G.R. SE271 281
Form of deposit or disposal to which this licence relates	Scrap Metal Dealers Premises
Types of waste of which deposit or disposal is authorised and any limitation as to quantity	As detailed in conditions 3 and 4 of attached list.

This Licence is granted subject to the following conditions:—

As detailed in the attached list of conditions

Dated 17 March 1992 (Signed) David Hartas  
(Designation) Secretary

THE LICENCE HOLDER SHOULD READ CAREFULLY THE NOTES OVERLEAF.

\* Insert name of Waste Disposal Authority.

CONTROL OF POLLUTION ACT 1974 PART 1  
WASTE DISPOSAL LICENCE NO. 709  
MORLEY WASTE TRADERS LTD.  
SCRAP METAL YARD  
ALBERT ROAD, MORLEY

NGR SE 271 281

SCHEDULE OF CONDITIONS

1. The site to which this licence relates shall be as outlined in red on the attached plan Drawing No.1.
2. The licence holder shall operate the plant in accordance with the plan (Drawing No.1) and details attached to this Licence. The Licence Holder shall notify the Waste Disposal Authority (hereinafter called the Authority) in writing of any proposed change in the actual conduct of operations from the proposals shown in the plan and details attached to this licence, as altered by any previously notified changes, at least one month before the proposed change is implemented. No change to the conduct of operations at the site shall be instigated until the change has been approved in writing by the Authority and the amendment has been attached to the licence.
3. The types of waste accepted at the site, the maximum weekly input rate and the maximum quantity stored at the site shall be as described in the attached schedule, ref 709/1.
4. No poisonous, noxious or polluting waste shall be accepted at the site except as detailed in the attached schedule, ref 709/1. Any such waste shall be dealt with as specified in the details attached to this licence.
5. Subject to condition 6 below (unless agreed otherwise in writing by the Authority) operating hours shall be from 08.00 hours to 17.00 hours Monday to Friday inclusive and 08.00 hours to 12.00 hours on Saturday and not at all on Sundays or Bank Holidays.
6. No waste disposal operations shall be carried out during the hours covered by official lighting up times (ie half-an-hour after sunset to half-an-hour before sunrise) unless lighting is provided.
7. Adequate measures shall be taken to prevent the deposit of mud, oil, grease or metal fragments on the highway as a result of site operations.
8. Within two months from the date of issue of this licence, a site identification board of durable material and finish shall be displayed and maintained at a suitable point near the site access, showing the times when the site is open and giving the licence number and the name and telephone number of the operator and of the Authority responsible for issuing the site licence.
9. All tanks/vessels and drums used for storage of waste shall be suitably labelled to describe their contents. Any inappropriate name markings and other identifications shall be obliterated.

10. All bulk liquid storage containers used in connection with the operation of the site shall be located within a bund to ensure containment of the liquid if for any reason leakage occurs. The floor and walls of the bund shall be watertight and capable of holding 110% of the capacity of the container. All pipework and the outlet valve shall be contained within the bund, and any tap valve shall be so arranged as to discharge vertically downwards and shall be kept locked shut when not in use.
11. All bulk liquid storage containers used in connection with the operation of the site shall be suitably designed and constructed and they shall be maintained to ensure that they are leak-proof and in working order whenever in use. The containers shall also be suitably labelled to describe their contents.
12. Any accumulations of water or other liquid within the bund surrounding a bulk liquid storage container shall be removed so as to retain the effectiveness of the bund and the liquid disposed of in a manner agreed with the Authority.
13. Whenever waste handling operations are being carried out, the site shall be adequately manned to ensure compliance with the conditions of this licence.
14. Whenever waste handling operations are being carried out, the site shall be supervised by a person competent to ensure compliance with the licence conditions.
15. Each load received shall be inspected to ensure compliance with Condition 3 and 4.
16. Wastes not in compliance with Condition 3 and 4 shall be placed in a secure storage area within the site and the Authority informed immediately. The Authority shall be given not less than 24 hours notice of the proposed method of dealing with the rejected waste. The waste shall be removed from the site within 7 days of the date of receipt.
17. Only clean uncontaminated water shall be discharged to the mineshaft.
18. Within 3 months from the date of issue of this licence all general uncontaminated yard drainage water shall be directed through an oil interceptor before being discharged to the mineshaft.
19. The oil interceptor shall regularly inspected and maintained to ensure it is operating effectively.
20. Where any container/tank/vessel is to be cut/crushed it shall be done in such a way as to prevent spillage of any contents or residue directly on to the ground.
21. Any spillage of liquid shall be dealt with immediately to clear or alleviate the effect of the spillage and adequate quantities of sand/absorbent material shall be on hand.
22. The area around the hydraulic press and shear shall have an impervious surface with a separate drainage system which shall drain to a sealed collection sump. The sump contents shall be disposed of regularly off site to prevent a build up of contaminated liquid.

23. Any storage area retained on a shale base shall be inspected regularly and provision made to remove and replace contaminated material as and when necessary with suitable new clean material.
24. Any proposals for amendment to the drainage or surfacing of the site shall be submitted for the prior approval of the Authority.
25. The discovery of friable/fibrous asbestos material during the dismantling/cutting of any waste shall be notified to the Authority. Such asbestos shall be placed in polythene bags (minimum 500 gauge) and double bagged. When filled the bags shall be sealed so as to prevent the escape of dust and be stored in a waterproof and secure area. Bags shall be removed and disposed of without delay to an appropriately licensed disposal facility, in accordance with the Control of Pollution (Special Waste) Regulations 1980.
26. The discovery of any material which could contain PCB's during dismantling of any type of item in which PCB's have been used, shall be notified to the Authority. The PCB or suspected PCB material shall be stored in a secure container. Material containing PCB's or contaminated with PCB's shall be disposed of without delay to an appropriately licensed disposal facility, in accordance with the Control of Pollution (Special Waste) Regulations 1980.
27. Batteries shall be stored in such a manner so as to prevent spillage or leakage of acid.
28. No waste material shall be burned within the boundaries of the site.
29. At all times the site shall be kept in a tidy condition.
30. All necessary action shall be taken to prevent the dissemination of odour fumes, dust or windblown material.
31. The licensed area shall be fenced and gated sufficient to prevent un-authorized access and the gates shall be kept locked at all times whilst the site is unattended. The gates and fencing shall be maintained when necessary to ensure the security of the licensed area.
32. The Authority shall be immediately informed of any incident that could give rise to danger to public health, pollution of water, or could be seriously detrimental to local amenity, including any fire.
33. Access shall be available at all reasonable times for inspection by the Authority.
34. A record shall be kept of the types, quantities and dates of waste handled and made available to the Authority on request.
35. By 30th April each year while this licence is in force, a summary in a form approved by the Authority of the types and quantities of waste handled at the site during the period from the 1st April the previous year to 31st March, shall be submitted to the Authority.
36. The terms of this site licence shall be made known to any person who is given responsibility for the management or control of the storage areas and a copy shall be maintained at the control office.

**FOOTNOTES:**

(a) If asbestos, PCB's or other hazardous materials are encountered during dismantling operations, the Health and Safety Executive should be informed immediately.

(b) All reasonable enquiries should be made to ascertain the former contents of any container, tank or vessel prior to delivery to the site and any necessary action taken. Steps should also be taken to ensure that it is completely empty and ventilated.

**OTHER STATUTORY REQUIREMENTS:**

Licence holders should note that this licence is issued under section 5 of the Control of Pollution Act 1974 and it does not provide them with exemption from any other statutory requirements.

ENVIRONMENT  
AGENCY

## ENVIRONMENTAL PROTECTION ACT 1990 Section 37

### NOTICE OF MODIFICATION OF WASTE MANAGEMENT LICENCE

To Morley Waste Traders Ltd  
Kaystan Ironworks  
Albert Road  
Morley  
LS27 8RU

WHEREAS on 17/03/92 the West Yorkshire Waste Management Joint Committee

granted a Waste Disposal Licence (now to be treated as a Waste Management Licence) (Reference 709) relating to Kaystan Ironworks Albert Road Morley

subject to the conditions set out therein

NOTICE is HEREBY GIVEN that the Environment Agency ("the Agency") modifies the said conditions as follows:-

Condition 34 and 35 shall be deleted and replaced by condition 34 and 35 on the attached sheet dated November 1997.

Such modification shall take effect three days from date of issue at noon

~~\*[In the opinion of the Agency it is necessary for the purpose of preventing pollution of the environment or harm to human health that Section 43[4] of the Environmental Protection Act 1990 should not apply.]~~

DATED 26/11

1997

(Signed)

(Designation)

Environment Protection Manager, Ridings Area

N.B. - The person served with this notice may appeal against the Agency's decision to the Secretary of State within six months or such longer period as the Secretary of State may allow. (See notes overleaf.)

\*[The person on whom this notice is served may also make application to the Secretary of State for a ruling as to whether the Agency has acted reasonably in including the above statement as to the non-application of Section 43[4] of the Act. - [See notes overleaf.]

TS537  
Version 1.2

34. A record shall be kept of all wastes received and of all materials (wastes and recovered materials) removed from the site. The records shall include the following for each vehicle load of waste/ materials:
  - (a) the origin of the waste by Local Authority District
  - (b) time and date received
  - (c) quantities in tonnes received and waste type - as specified by the Agency
  - (d) time and date removed
  - (e) quantities in tonnes removed and waste type - as specified by the Agency
  - (f) destination of where materials removed to by Local Authority District
  
35. A summary of the information provided in condition 34 shall be submitted to the Agency in a format and at the frequency as required by the Agency. This summary shall be submitted within fourteen days of the end of the accounting period specified by the Agency.

**Modifications to waste management licence conditions :**

**Condition 3 shall be deleted and replaced by :**

3. Subject to conditions 4a and 4b below, the types and quantities of wastes accepted at the site shall be as described in schedule Ref 709/3 .

**Condition 4 shall be deleted and replaced by :**

4a. No wastes which are likely to cause pollution of the environment or harm to human health shall be accepted on the site, except as described in the attached schedule. Any such waste shall be dealt with as specified in the details attached to this licence.

4b. No special wastes, (as defined by the Special Waste Regulations 1996), shall be accepted at the site, with the exception of the contents of motor vehicle batteries and special waste which forms part of, or is contained in, a waste motor vehicle and was necessary for the normal operation of the vehicle

**Condition 25 shall be deleted and replaced by :**

25. The discovery of friable/ fibrous asbestos material during the processing of any material, or item, shall be notified to the Environment Agency. Such asbestos material shall be placed into polythene bags, minimum 500 gauge, and double bagged. When filled, the bags shall be sealed so as to prevent the escape of dust, and stored in a waterproof and secure area. Bags shall be removed and disposed of without delay to a suitably licensed disposal facility, in accordance with the Special Waste Regulations 1996.

**Condition 26 shall be deleted and replaced by :**

26. The discovery of any material, or item, which may contain, or be contaminated with polychlorinated bi-phenyls (PCBs) during the processing of any item shall be notified to the Environment Agency. The PCB, or suspected PCB, material shall be sorted in a secure container and disposed of without delay to suitably licensed disposal facility, in accordance with the Special Waste Regulations 1996.

**Schedule Ref No 709/02 shall be deleted and replaced by schedule Ref No 709/3**  
(see attached schedule)

**Waste Management Licence No. 709**

**March 1996**

**Ref. 3/96**

**Environmental Protection Act 1990**

Condition 5 shall be deleted and replaced by:-

5. Subject to condition 6 below (unless agreed otherwise in writing by the Authority) operating hours shall be from 07.30 hours to 18.00 hours Monday to Friday inclusive and 08.00 hours to 12.00 hours on Saturday and not at all on Sundays or Bank Holidays.
