Introductory note

This introductory note does not form a part of the notice.

Under the Environmental Permitting (England & Wales) Regulations 2016 (schedule 5, part 1, paragraph 19) a variation may comprise a consolidated permit reflecting the variations and a notice specifying the variations included in that consolidated permit.

Schedule 1 of the notice specifies the conditions that have been varied and schedule 2 comprises a consolidated permit which reflects the variations being made. Only the variations specified in schedule 1 are subject to a right of appeal.

Viridor Waste Management Limited operates Pilsworth South Landfill Site as a non-hazardous landfill with an Asbestos Cell. The site has been developed within the void created by sand and gravel quarrying excavations. Waste acceptance commenced at the site in January 2006. Main access to the site is via Pilsworth Road in the northwest corner of the site. The site is permitted under:

Section 5.2 Part A(1) (a) The disposal of waste in a landfill receiving more than 10 tonnes of waste in any day or with a total capacity of more than 25,000 tonnes, excluding disposals in landfills taking only inert waste.

This variation to the permit includes the addition of a new waste code to table S2.3 specifically for the asbestos cell:

17 05 03* - soil and stones containing dangerous substances (the waste stream will be limited to soils that are contaminated with asbestos).

The addition of table 'S2.7 - Permitted waste types – non-hazardous, non-biodegradable waste for asbestos cell cover/ haul roads' with waste codes including:

17 01 07 - Mixture of concrete, bricks, tiles, and ceramics other than those mentioned in 17 01 06.

17 05 04 - soil and stones other than those mentioned in 17 05 03

10 03 30 - wastes from treatment of salt slags and black drosses other than those mentioned in 10 03 29

Table S1.5 Annual waste input limits and Table S2.2 Permitted waste types accepted for restoration updated in accordance with approved restoration plan.

Schedule 1 to this notice summarises the changes we have made to this permit.

The status log sets out the permitting history, including any changes to the permit reference number.
