### Introductory note

#### This introductory note does not form a part of the notice

The following notice gives notice of the variation of an environmental permit.

This variation will impact upon activities referenced A1 and A2 in Schedule 1 Table S1.1. The permit is varied to allow for additional waste codes to be received under activity A1 and allow shredding of metal, acceptance and treatment of skip waste, chipping of wood, drying of plasterboard and soils and additional waste codes under activity A2. An approved Fire Prevention Plan, Dust Management Plan and a water quality testing regime for the leachate tank containing any liquids from the metal treatment area have been incorporated into Table S1.2 Operating techniques and the permitted area has also changed as part of this variation.

The schedules specify the changes made to the original permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.
