Introductory note

This introductory note does not form a part of the notice

The following notice gives notice of the variation of an environmental permit.

This administrative variation authorises the addition of 15 EWC codes in to Table S2.1 Permitted wastes types and quantities for a waste transfer station. The agency has also initiated changes relating to fire prevention which is now required for all permits where there is storage of combustible wastes.

The schedules specify the changes made to the original permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.
