Introductory note

This introductory note does not form a part of the notice

The following notice gives notice of the variation of an environmental permit.

This is an administrative variation to update the site plan. The installation boundary is extended as a result of the variation application made by Harsco Metals Group Limited. While the installation boundary is extended, the areas of Redcar Bulk Terminal Limited's operation remain unchanged.

This variation is also to update the registered address of the permit holder.

The schedules specify the changes made to the original permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.
