Introductory note

This introductory note does not form a part of the notice

The following notice gives notice of the variation of an environmental permit.

The operations carried out at the site are green waste composting, (which is already permitted) and a wood and timber processing plant (which is under an exemption). This variation will incorporate the previous exempt activities into the current permit; using waste codes and schedules from the standard rules permit SR2011No4 which is a similar related activity.

The schedules specify the changes made to the original permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.
