WEST SUSSEX COUNTY COUNCIL

Control of Pollution Act 1974

**To Patrick Kenneth Stanley,
 The Bungalow, Woodhorn Crossing,
 Oving, Chichester,
 West Sussex. PO20 6DA.**

In pursuance of their powers under Section 5 of the Control of Pollution Act 1974 the West Sussex County Council, being the Licensing Authority for the area, hereby grant you a disposal licence authorising the temporary deposit and treatment of controlled waste

subject to compliance with the following conditions:

1. The area of land over which the authorisation granted by this licence extends (hereinafter called the Authorised Area) is land known as:- Yard at Woodhorn Crossing, Woodhorn Lane, Oving, Chichester as highlighted in red on the plan marked Site Location Plan submitted with the licence application dated 2nd April 1993.
2. This licence will come into force on:- 31st March 1994
3. The local representative of the licence holder is:- Not Applicable
4. The authorisation granted by this licence allows the types and quantities of controlled waste set out in Appendix 3 of this disposal licence to be temporarily deposited or treated on the Authorised Area.

Continued.....

It is important that you read the guidance notes accompanying this disposal licence.

WEST SUSSEX COUNTY COUNCIL

Continuation Sheet

5. Unless defined in the Control of Pollution Act 1974, the Environmental Protection Act 1990, or their accompanying Regulations, the terms referred to in this licence shall have the meaning assigned to them in Appendix 2 of this licence.
6. A copy of this licence, Working Plan and Statement of Intent shall be maintained in the Site Control Office and made available on request to any Authorised Officer of the Licensing Authority.
7. The relevant conditions of this licence shall be made known to all persons employed on the site in the capacity in which they are employed. A copy of Appendix 3 shall be displayed where it can be seen by persons delivering waste to the site.
8. Unless required by further conditions in this licence, no deposit or treatment of waste shall take place except in accordance with the Working Plan and Statement of Intent unless at least one month previously an amended Working Plan or Statement of Intent has been submitted to and approved by the Licensing Authority. All schemes agreed or approved by the Licensing Authority required by conditions of this licence shall form part of the Statement of Intent and Working Plan.

Note: Any provisions which appear in the Working Plan or Statement of Intent which are subject to further Conditions in this licence, cannot be altered except under the provisions of Section 7 of the Control of Pollution Act 1974 or Section 37 of the Environmental Protection Act 1990.

9. A site diary shall be maintained on the site and used to record daily events and the development of the site. This shall include, as a minimum, the following information:-
 - (a) any official visitors to the site
 - (b) machine breakdowns, plant repairs etc.
 - (c) damage to fencing, plant, hydraulics, etc.
 - (d) results of pest control inspections and any measures taken
 - (e) waste not conforming to Condition 4 and Appendix 3 of this licence
 - (f) any spillage of polluting liquid and clean up measures taken
 - (g) date banded areas are inspected or emptied and the name and registration number of the contractor who removed the waste.
 - (h) weather conditions.
 - (i) any other inspections required by conditions of this licence.

This site diary, shall be made available to any Authorised Officer of the Licensing Authority on request.

10. Only the plant and machinery detailed in the Statement of Intent shall be used on site. No other plant or machinery shall be brought onto the site without the prior approval of the Licensing Authority.

WEST SUSSEX COUNTY COUNCIL

Continuation Sheet

11. No deposit of waste shall take place after the 31st May 1994 unless a site notice board of adequate size and finish is displayed at the site. This shall be located in a position where it can be read by site users and other interested parties and shall provide the following information:-
- (a) the site name;
 - (b) the site operator's name, principal address and telephone number;
 - (c) a telephone number for emergency use;
 - (d) the opening hours of the site;
 - (e) the fact that the site is licensed by the Trading Standards Department of West Sussex County Council.
12. Before the 31st May 1994 a detailed proposal shall be submitted to the Licensing Authority for approval setting out how pressurised containers/cylinders will be stored. As a minimum the proposals shall address the following:-
- (i) the separation distance between each gas cylinder and any boundary, building or fixed ignition source;
 - (ii) the construction of the cage or compound;
 - (iii) the construction of the surface of the floor;
 - (iv) ventilation and steps to minimise flammable gases or vapours entering any drainage systems.
13. Before the 31st May 1994 a detailed proposal shall be submitted to the Licensing Authority for approval setting out how waste which is not suitable for reuse or recycling and which requires to be removed from the site for disposal (including any waste which has been inadvertently brought to the site and is not authorised by condition 4) will be dealt with and stored. As a minimum the proposal shall address the following:-
- (i) the construction of any building, container or fencing;
 - (ii) security measures to prevent unauthorised or unintentional access;
 - (iii) ventilation;
 - (iv) drainage;
 - (v) materials in which any hazardous waste may be stored ie. batteries in polyethylene containers.
14. Before the 31st May 1994 a detailed proposal shall be submitted to the Licensing Authority for approval setting out how lead acid batteries will be stored on site. As a minimum the proposal shall address the following:
- i) the area where batteries are to be stored
 - ii) the construction of any container used for battery storage
 - iii) details of the construction of any bunded area.
15. Before the 31st May 1994 a detailed proposal shall be submitted to the Licensing Authority for approval setting out how vehicles will be drained of all fluids as soon as reasonably practicable following delivery to the site. As a minimum the proposal shall address the following:-

WEST SUSSEX COUNTY COUNCIL

Continuation Sheet

- i) the construction of the area used for drainage,
 - ii) drainage,
 - iii) the construction of the surface of the floor.
16. Before the 31st May 1994 a detailed proposal shall be submitted to the Licensing Authority for approval detailing the disposal of coolants and anti-freeze.
17. Before the 31st May 1994 a detailed proposal shall be submitted to the Licensing Authority for approval setting out how brake and clutch linings which may contain asbestos shall be removed from vehicles. This proposal shall address the method used to minimise the risk of pollution of the environment.
18. After the 30th September 1994 (or such other longer period as may be agreed with the Licensing Authority) all pressurised containers/cylinders shall be stored on the site in accordance with a scheme to be agreed with the Licensing Authority.
19. After the 30th September 1994 (or such longer period as may be agreed with the Licensing Authority) any waste which requires to be removed from the site for disposal (including any waste which is not suitable for reuse or recycling and has been inadvertently brought to the site and is not authorised by condition 4) shall be stored in accordance with a scheme to be agreed with the Licensing Authority.
20. After the 30th June 1994 lead acid batteries shall be dealt with in accordance with a scheme to be agreed with the Licensing Authority.
21. After the 30th September 1994 (or such longer period as may be agreed with the Licensing Authority) all cars shall be drained of all fluids in accordance with the scheme to be agreed with the Licensing Authority.
22. After the 30th September 1994 coolants and anti-freeze shall be disposed of in accordance with a scheme to be agreed with the Licensing Authority.
23. After the 30th September 1994 brake and clutch linings shall be removed from vehicles on the site in accordance with a scheme to be agreed with the Licensing Authority.
24. After the 30th September 1994 all buildings used for the storage of waste shall be maintained to prevent the ingress of water.
25. A working telephone shall be provided and maintained on the site at all times.
26. Appropriate first-aid, toilet and washing facilities shall be maintained on the site and be available for the use of persons working on or visiting the site.
27. All road vehicles using the site shall enter and leave the site using the site entrance road detailed in the Statement of Intent and Working Plan. This road shall be maintained so that it is wide enough to permit two way vehicular traffic and shall be maintained in good condition, free from ruts, potholes, standing water and mud.

WEST SUSSEX COUNTY COUNCIL

Continuation Sheet

28. The entrance road shall be inspected daily by a responsible person and the road, ditches and environs kept free of litter or any other debris. Any potholes which develop in the road shall be filled and resurfaced within 7 days.
29. The gates specified in the Statement of Intent and Working Plan shall be kept locked closed at all times when the site is unattended.
30. All fencing, gates and any other barriers or security measures detailed in the Statement of Intent and Working Plan to prevent unauthorised access to the site shall be maintained in full working order and any damage which impairs their effectiveness shall be repaired as soon as practicable. Where this cannot be achieved by the end of the working day alternative security measures shall be taken to secure the site. Before the site closes, the Licensing Authority shall be advised by telephone using the telephone number listed in Appendix 7 of:-
 - (a) damage which has occurred and the measures which have been taken to secure the repairs.
 - (b) What additional security measures have been provided in order to prevent unauthorised access.
31. The external doors and windows of all buildings on the Authorised Area shall be closed and locked where appropriate, at all times the site is unattended.
32. Arrangements shall be made for the parking of vehicles owned by persons visiting or working on the site as specified in the Statement of Intent and Working Plan.
33. No deposit, removal or treatment of waste shall take place unless there is a responsible person on site.
34. Processing, sorting and deposit of waste shall only take place in the areas detailed in the Statement of Intent and the Working Plan.
35. No deposit of waste, or other works associated with this licence, shall take place outside the hours 8.00 a.m. to 6.00 p.m.
36. No polluting liquid in excess of 200 litres shall be stored on the site unless the storage tank is situated inside a concrete or steel bund designed to contain, without leaking, 10% more than the capacity of the tank. All loading, discharge and vent pipes shall be situated within the bunded area unless loading or off loading is actually taking place. Any bund drainage valves shall be fitted with a locking mechanism and shall be locked closed at all times unless being used to drain off accumulated uncontaminated rain water. Whenever the valves are open somebody shall be stood next to them in case of emergency.
37. Any ditches, culverts or any other kind of drainage channel or drainage pipework shall be effectively maintained and kept free running and clear of litter, debris or any obstruction.

WEST SUSSEX COUNTY COUNCIL

Continuation Sheet

38. No polluting liquid within the authorised area shall be pumped or allowed to discharge such that it could find its way into any water course or ground water.
39. Absorbent material shall be stored on the Authorised Area to mop up any spillage of polluting liquid. The minimum quantity of absorbent material which shall be stored on the Authorised Area shall be 20 kg. Any spillage of polluting liquid shall be dealt with immediately to clear or alleviate the effect of the spillage. This absorbent material shall be stored in such a manner as to protect it from the effects of the weather.
40. The condition of the surface of all waste storage areas shall be inspected at least every 6 calendar months. If damage to these surfaces is identified these defects shall be subject to a permanent repair within one week such that the finish of the repair is to the same standard as the original surface. No deposit of waste shall take place in any storage area with damaged surfaces unless the necessary permanent repair has been completed.
41. No waste container, tank or vessel shall be crushed or cut unless any liquid residues or vapours as far as reasonably practicable have been removed.
42. No vehicle shall be crushed, baled or sheared unless the petrol tank has been removed from the vehicle and the vehicle has been drained of all fluids.
43. A record of the date any tank containing waste liquid is inspected or completely emptied and the name of the person carrying out the inspection or emptying of the tank shall be recorded in the site diary.
44. All storage containers used for the storage of liquid waste shall be suitably labelled to describe their contents. Any inappropriate name markings or other identifications shall be removed or obliterated.
45. Nothing shall be mixed with any waste oils stored on site.
46. No lead acid batteries shall be broken, emptied or washed out.
47. Any lead acid batteries with damaged casings shall immediately be placed in a container capable of containing any acid which may escape and which will not react with the acid.
48. No dismantling, destruction or disposal of vehicle airbag gas generators shall take place on site such that any potentially polluting chemicals are released during any of these activities.
49. No mixing of waste liquids shall take place which could react to cause pollution of the environment or harm to human health. No special waste shall be diluted on the Authorised Area.
50. Waste likely to contain CFC's shall be labelled or marked to indicate the date it was delivered to the site.

WEST SUSSEX COUNTY COUNCIL

Continuation Sheet

51. CFC's shall be removed from any waste containing these gases by a contractor or by the Licence Holder by a means and method to be agreed with the Licensing Authority. A record of the date the CFC's were removed and the name of the person who removed these gases shall be recorded in the site diary.
52. No waste containing CFC's shall be stored on site for longer than 28 days without these gases being removed. Any waste which has been emptied of CFC's shall be clearly marked to indicate that the gases have been removed.
53. All waste cars shall be drained of all fluids as soon as reasonably practicable following delivery to the site and prior to being stacked.
54. No stack of vehicles shall exceed a height of 3 metres.
55. In the event that any mud or any other material is carried on to the site entrance road from the site, steps shall be taken to clean the entrance road and ensure that no mud or other material is carried on to the highway.
56. No vehicle or vehicles shall leave the site in such a condition that mud or other material adheres to the wheels or chassis of the vehicle or vehicles in such a quantity that mud or other material is deposited in a manner tending to produce a nuisance or hazard on the highway.
57. No person shall operate plant or machinery on site unless they have received the necessary training in its use. Details of the staff and the training they have received shall be held in the Site Control Office and shall be made available on request to any Authorised Officer of the Licensing Authority. This list shall be updated as necessary.
58. All waste handling plant detailed in the Statement of Intent which contains hydraulic fluid shall be inspected at the start of the working day for leakage of hydraulic fluid and to ensure that the plant is in full working order. If damage to any hydraulic pipe is identified at this time or any other time the relevant equipment shall be taken out of use until the damage has been repaired. A note of any damage to the pipes and their replacement shall be recorded in the site diary.
59. No waste shall be cleaned using any solvent unless agreed with the Licensing Authority.
60. Precautions shall be taken to minimise dust being generated on the site and at no time shall dust be allowed to become detrimental to the health of persons off the site. To assist in this the following minimum steps shall be taken at all times when dust is likely to be generated by site operations:-
 - (a) A speed limit shall be imposed and
 - (b) Site roads and dusty areas shall be wetted with water. If necessary a wetting agent shall be added to the water to improve its effectiveness and
 - (c) Roads on the site shall be cleaned using a wet vacuum sweeper if necessary.

WEST SUSSEX COUNTY COUNCIL

Continuation Sheet

61. The licence holder shall comply with the following conditions:-
- (a) Dust levels shall not exceed the below levels at the site boundary at any time:
Total inhalable dust 10mgm^{-3} (8 hour time weighted average)
Total respirable dust 5mgm^{-3} (8 hour time weighted average)
 - (b) Dust levels shall be monitored or analysed for specific parameters, if requested by the Licensing Authority in writing by an independent laboratory by a means and method to be agreed by the Licensing Authority.
 - (c) Results of any monitoring carried out in accordance with this condition shall be forwarded to the Licensing Authority within seven days of the monitoring taking place.
62. Activities on the site shall be conducted in such a manner that any odours or fumes generated on the site are kept to a minimum. In the event that any odour or fumes can be detected outside the site boundary immediate steps shall be taken to identify and eliminate the source. A review of the activity causing the odour or fumes shall be undertaken and measures implemented to prevent its recurrence.
63. Precautions shall be taken to ensure that pests such as rodents, flies, insects, etc., do not become established on the site, to assist in this the following minimum steps shall be taken:-
- (a) At intervals not exceeding seven days during the months of November to March inclusive and daily at all other times the site and its environs shall be inspected, by somebody with at least a basic training in pest control, for the purposes of identifying the presence of any pests on the site. If any pests are identified by this inspection then the advice of an independent pest control contractor shall be sought before the end of the working day and his recommendations put into effect immediately unless they conflict with any conditions of this licence and
 - (b) At intervals not exceeding one calendar month an independent pest control contractor shall inspect the site and its environs and undertake, or recommend, any preventative pest control measures which are necessary to prevent pests becoming established on the site. Any recommendations made by the contractor shall be put into effect immediately unless they conflict with any conditions of this licence.
64. Only those pesticides approved by the relevant pesticides regulations shall be used on the site.
65. Unless instructed by an Authorised Officer of the Licensing Authority any waste which may have been deposited at the entrance to the site or its immediate environs shall be removed within the first two hours following its discovery or the site being opened as appropriate.
66. The site shall be maintained in a neat and tidy condition and any loose waste which may be lying on site shall be gathered up progressively before the end of the working day and disposed of in such a way as to keep the site tidy.

WEST SUSSEX COUNTY COUNCIL

Continuation Sheet

67. No smoking or other naked flames shall be permitted on the site other than in areas which have been previously agreed with the Licensing Authority. In order to bring this to the attention of persons visiting the site as a minimum the following measures shall be taken:-
- (a) A sign to the effect that smoking and the use of naked flames is not allowed on the site.
 - (b) Buildings and areas where smoking or naked flames are permitted shall be clearly marked.
68. No disposal of waste by burning shall take place on the site and a fire on the site shall be regarded as an emergency and immediate action shall be taken to extinguish it. Any outbreak of fire shall be notified immediately to the Licensing Authority by telephone using the telephone numbers set out in Appendix 7. An enquiry into the reason for the fire shall be carried out and a report of its findings and the measures which will be taken to prevent a recurrence shall be forwarded to the Licensing Authority within 14 days of the fire. Persons using the site shall be made aware of the procedure to be adopted in case of fire.
69. A record, giving the information set out in Appendix 5A of this licence, shall be kept of all vehicles entering the site for the purposes of depositing or removing waste. These records shall be kept in the Site Control Office, or other office agreed in advance with the Licensing Authority, for two months and shall be made available during site opening hours to any Authorised Officer of the Licensing Authority on request.
70. A summary, in the form set out in Appendix 5B and 5C of this licence, of the waste, which has been deposited or removed from the site each month, shall be forwarded to the Licensing Authority before the 21st day of the month following deposit or removal.
71. If any wastes brought to the site are not authorised by Condition 4 and Appendix 3 of this licence details of the type of waste, vehicle registration number and the name of the driver shall be recorded in the site diary.
72. All persons delivering waste to the site, other than the licence holder or his employees, shall report to either the licence holder or one of his employees before depositing the waste.
73. All persons other than the licence holder or his employees delivering waste to the site shall be directed to the appropriate waste storage area detailed in the Statement of Intent and Working Plan by the licence holder or one of his employees.
74. Any cessation of operations for a period likely to exceed 12 weeks shall be notified to the Licensing Authority in writing. Operations shall not then recommence unless 14 days notice in writing has been given to the Licensing Authority of the date on which operations are to recommence.

WEST SUSSEX COUNTY COUNCIL

Continuation Sheet

75. No deposit of waste, or other works associated with this licence shall take place during the hours of darkness unless the following areas of the site are illuminated to the minimum following levels:-

- (a) All fixed plant 100 lux.
- (b) Internal site roads 5 lux.
- (c) Liquid draining areas 100 lux.
- (d) Gas cylinder storage areas 100 lux.
- (e) Waste loading/unloading areas 100 lux.

The inside of any building used for the storage of waste shall be illuminated to a minimum of 100 lux at all times any person is present in the building.

76. A sufficient number of staff shall be employed at all times waste handling and treatment is carried out on site to comply with the conditions of this licence.
77. By the 30th April each year, the Licence Holder shall provide the Licensing Authority with a document signed by an independent competent person to the effect that the plant detailed in the Statement of Intent is in proper working order and all the necessary maintenance has been carried out.

SUMMARY OF REVISIONS

This page will be used to record details of any licence revisions.

Appendix 2

DEFINITIONS

"agreed" means agreed in writing with the Licensing Authority.

"approved" means approved in writing with the Licensing Authority.

"CFCs" mean dichlorodifluoromethane, chlorotrifluoromethane, dichlorotetrafluoroethane, chloropentafluoroethane, bromotrifluoromethane, chlorodifluoromethane, chlorotetrafluoroethane, trifluoromethane, difluoromethane, pentafluoroethane, tetrafluoroethane, chlorodifluoroethane, difluoroethane, trichlorofluoromethane, trichlorotrifluoroethane, dichlorotrifluoroethane, dichlorofluoroethane and mixtures containing any of those substances.

"Detailed proposal" means a written report and/or plans in sufficient detail to enable the Licensing Authority to determine whether the proposed method will prevent any pollution of the environment, harm to human health or be seriously detrimental to the amenities of the locality.

"hours of darkness" means the period between lighting up time in the evening and half an hour before sunrise the following morning.

"Licensing Authority" means the West Sussex County Council, Trading Standards Department, The Tannery, Westgate, Chichester, West Sussex, PO19 3HN. All correspondence should be addressed to the County Trading Standards Officer quoting reference number WD13/212.

"PCBs" means polychlorinated biphenyls.

"Polluting liquid" means any liquid with a pollution potential greater than that of water.

"Responsible Person" means an employee of the licence holder who has responsibility for the day to day running and management of the site and for ensuring that the conditions attached to this licence are complied with.

"secure drum" or "secure container" means one designed so that, as far as is practicable, waste cannot escape from it by means of leakage, or by means of a chemical reaction between the drum or container and the material contained therein.

"Site Control Office" means the main site office detailed in the Working Plan.

"Site" means the same as the Authorised Area.

"site diary" means a written record of daily events and development on the site recorded in either a book or paper kept in a loose leaf file.

"Statement of Intent" means the documents listed in Appendix 4B of this Disposal Licence.

"Treatment" means the associated use of plant and equipment for dealing with controlled waste authorised by this licence.

"waste oil" means any mineral-based lubrication or industrial oils which have become unfit for the use for which they were originally intended, and in particular used combustion engine oils and gearbox oils, and also mineral lubricating oils, oils for turbine and hydraulic oils.

"Working Plan" means the drawings and plans as listed in Appendix 4A of this Disposal Licence.

Appendix 3

**TYPES AND QUANTITIES OF WASTE WHICH MAY BE TEMPORARILY
DEPOSITED ON THE AUTHORISED AREA**

The authorisation granted by this licence allows the following types and quantities of controlled waste to be deposited and treated on the Authorised Area:-

Motor vehicles (including lorries, cars and trailer) and the associated liquids and fluids contained within their components.

Exclusions

1. Special waste as defined in the Control of Pollution (Special Waste) Regulations 1980 (SI 1709), other than lead acid batteries.
2. Asbestos (all chemical forms other than brake shoes or clutch linings).
3. Domestic electrical appliances.
4. Metallic powders.
5. Any waste containing material which reacts violently with water or air.
6. Waste containing greater than 50ppm of PCB's averaged over 1000Kg of the waste.
7. Substances within the Control of Radioactive Substances Act 1960 and subsequent amendments.
8. Percussives or explosives and other substances with similar characteristics.
9. Tankers.

The annual throughput of the waste shall not exceed 156 vehicles per annum.

For the purpose of this Appendix one vehicle shall be assumed to weigh 1 tonne.

Appendix 4(A)

RECORD KEEPING

The record required for each vehicle being delivered to the site shall include:-

- (a) the vehicle registration number;
- (b) the Borough or District Council area in which the waste originated
- (c) the type of vehicle, e.g. car, lorry or trailer
- (d) the date of delivery.

The record for each vehicle leaving the site removing waste shall include:-

- (a) the date of removal;
- (b) the destination of scrap metal or residues;
- (c) the type of scrap metal or residues;
- (d) the weight or volume of scrap metal or residues in tonnes.

The type of waste shall be classified as below:

Category 20	-	Ferrous scrap metal (eg cars shells)
Category 30	-	Non ferrous scrap metal (eg aluminium, copper)
Category 35	-	Vehicles
Category 40	-	Tyres
Category 41	-	Oil
Category 42	-	CFC (Expressed as units degassed)
Category 43	-	Lead Acid Batteries
Category 44	-	Plastic
Category 45	-	Glass
Category 50	-	Other liquid waste e.g. brake fluid

Note: In the case of mixed loads the highest appropriate category shall be used.

Monthly Summary

Year

Page 16 of 19

RECORD KEEPING**Monthly Summary**

The summary of waste which has been removed from the site each month shall be set out as follows:

Name of site:-

Month

Year

Category of waste eg: Category 20, Category 30, Category 40, Category 41	Destination of Residues or Scrap Metal	Weight or volume of scrap metal or residues/tonnes or cubic metres

This page is reserved for future modifications.

GUIDANCE NOTES

Your Attention is Directed to the Following Guidance Notes

This page is for information only and does not form part of the disposal licence and does not pretend to set out the whole of the law on the subject. It would be well for you to consult your Solicitor if you are in any doubt.

1. Please note that the issue of this disposal licence conditionally, or unconditionally, does not remove the need to comply with the Health & Safety at Work Act 1974, the Radioactive Substances Act 1960, the Town & Country Planning Acts, legislation relating to water protection or environmental health or any other legislation.
2. If you are aggrieved by the decision of the County Council in granting a licence subject to conditions you may appeal to the Secretary of State in accordance with Section 10 of The Control of Pollution Act 1974. Appeals must be notified within six months of the date of this licence and sent to the Department of the Environment, Noise Nuisance and Wastes Division, Room A222, Romney House, 43 Marsham Street, London, SW1 3PY. The appeal must be on a special form and be accompanied by supporting documents and the grounds on which you appeal is based. Further information and the necessary forms can be obtained from the Department of the Environment at the above address.

The Secretary of State has power to allow a longer period for the giving of notice of an appeal but he will not normally be prepared to exercise his power unless there are special circumstances which excused the delay in giving notice of an appeal.
