No. 1627

OUTGOING

ENVIRONMENTAL PROTECTION ACT 1990
PART II

WASTE MANAGEMENT LICENCE

THE West Yorkshire Waste Management Joint Committee passed a Resolution on 8 March 1996 which subsequently fell to be treated as a Waste Management Licence on 1 April 1996

Name and address of licence holder:	West Yorkshire Waste Management Joint Committee County Hall, Wakefield, WF1 2QW	
Names and addresses of subsequent holders:	INGLEBY 1052 LD % KIRKLEES METROPOLITAN COUNCIL LEGAL SERVICES DEPARTMENT 2ND FLOOR CIVIC CENTRE 3 HUDDERSFIELD HD1 2TG	KIRKLEES WASTE SERVICES LTD LANCASHIRE HOUSE 24 WINCKLEY SQUARE PRESTON PR1 3JJ
Agency Endorsement: Signed Date		3 APRIL 1998 <i>[Signature]</i>
Activities permitted by this licence	Keeping of waste	
Specified description of controlled waste	As detailed in condition(s) 8 and 9	
Location of site to which this licence relates	Nab Lane Household Waste Site, Birstall As detailed in condition 1	
Grid Reference	SE 237 273	
Conditions	This licence is granted subject to the attached conditions	

WASTE MANAGEMENT LICENCE - GUIDANCE NOTE

Please read the following notes carefully. They tell you how to vary, transfer or surrender your licence, and how to appeal if you disagree with any of the conditions attached to the licence. Further detail is given in the relevant section of the Environmental Protection Act 1990.

Section 37 - Variation

If you wish to vary any of the conditions of your licence or revise the working plan you must write to the Waste Regulation Authority describing the changes.

- The Authority will consider the application and let you know as soon as possible if it agrees to the modification.
- The Authority may also modify your licence if it considers it to be desirable and unlikely to require unreasonable expense.
- where you request the variation a fee is payable.

Section 39 - Surrender

- A mobile plant licence can be surrendered at anytime.
- A site licence can only be surrendered if the Authority accepts the surrender and issues a Certificate of Completion. The Authority can only issue a Certificate of Completion if it is satisfied that the condition of the land that was licensed is unlikely to cause pollution of the environment or harm to human health.
- You will need to submit a Completion Report when applying for a Certificate of Completion. The detail required will vary according to the type of site, and will be greatest for landfill sites. More information on the requirements is available from the Authority.
- A fee is payable for the Certificate of Completion.

Section 40 - Transfer

- A licence may be transferred at any time.
- You as licence holder, and the person who you wish to transfer the licence to ("the proposed transferee") need to make a joint application to the Authority. Transfer application forms are available from the Authority.
- The Authority will consider the transfer application and decide whether the proposed transferee is a "Fit and Proper Person" to hold the licence. The Authority will then notify both parties of its decision as soon as possible.
- If the transfer is agreed you must return your licence to the Authority for the name of the new licence holder to be entered.
- A fee is payable for a licence transfer.

Section 42 - Supervision of licensed activities.

The Authority has a duty to supervise licensed facilities to ensure that:

- The activities licensed do not cause pollution of the environment, harm to human health, or become seriously detrimental to the amenities of the locality and
- The conditions of the licence are complied with.

Various powers are granted to the authority under this section to ensure the above.

Section 43 - Appeals

- If you disagree with the conditions that the Authority has attached to your licence you can appeal to the Secretary of State.
- Appeals must be made within 6 months of the date of issue of the licence.
- The appeals procedure is also available for other decisions with respect to waste management licences which may affect you at a later date.
- Appeals should be made in writing to the Secretary of State and addressed to: The Planning Inspectorate, Room 10/13, Tollgate House, Houlton Street, Bristol, BS10 9DJ.

ENVIRONMENT
AGENCY

ENVIRONMENTAL PROTECTION ACT 1990 Section 37

NOTICE OF MODIFICATION OF WASTE MANAGEMENT LICENCE

To Kirklees Waste Services Ltd,
Lancashire House,
24 Winckley Square
Preston
PR1 3JJ

WHEREAS on 2 April 1998 the Environment Agency

Transferred to you a Waste Management Licence (Reference 1627) relating to Nab Lane Household Waste Site, Nab Lane, Birstall, Batley

subject to the conditions set out therein

NOTICE is HEREBY GIVEN that the Environment Agency ("the Agency") modifies the said conditions as follows-

FIRST MODIFICATION

The Schedule of Conditions to Waste Management Licence Reference Number 1627, shall be deleted and the attached Schedule of Conditions, Waste Management Licence Reference Number 1627, Modification 2. February 1999, shall be substituted.

Such modification shall take effect on 15 February 1999 at 08.00 hours.

~~*[In the opinion of the Agency it is necessary for the purpose of preventing pollution of the environment or harm to human health that Section 43[4] of the Environmental Protection Act 1990 should not apply.]~~

DATED 8 February 1999

(Signed)

(Designation) Area Environment planning Manager

N.B. - The person served with this notice may appeal against the Agency's decision to the Secretary of State within six months or such longer period as the Secretary of State may allow. (See notes overleaf.)

*[The person on whom this notice is served may also make application to the Secretary of State for a ruling as to whether the Agency has acted reasonably in including the above statement as to the non-application of Section 43[4] of the Act. - [See notes overleaf.]

TSS37
Version 1.2

S37 NOTES

Appeals

If a licence holder is aggrieved by the decision of the Agency in modifying conditions specified in a Waste Management Licence he may appeal to the Secretary of State in accordance with Section 43 of the Environmental Protection Act 1990. Appeals must be notified within 6 months of the date of this notice to The Planning Inspectorate, Room 12/03D, Tolgate House, Houlton Street, Bristol, BS2 9DJ.

The Secretary of State has power to allow a longer period for the giving of notice of an appeal but he will not normally be prepared to exercise this power unless there are special circumstances which excuse the delay in giving notice of an appeal.

Where a notice giving the Agency's decision to modify a Waste Management Licence includes a statement that for the purpose of preventing pollution of the environment or harm to human health Section 43[4] of the Environmental Protection Act 1990 should not apply to the decision, the notification of an appeal against the decision will not of itself render the decision ineffective pending determination of the appeal.

If you consider that such a statement has been unreasonably included in the notice of decision you may apply, under Section 43(7) of the Environmental Protection Act 1990 to the Secretary of State to determine whether the Agency's action was unreasonable or not, (the address to write to is as given above). If the Secretary of State determines that the Agency acted unreasonably in including such a statement, the Agency's decision will become ineffective while an appeal is pending and you will be entitled to recover compensation from the Agency in respect of any loss you have suffered in consequence of the statement. Any dispute as to your entitlement to compensation or its amount shall be determined by arbitration.

LICENCE No. 1627
NAB LANE HOUSEHOLD WASTE SITE
BIRSTALL, BATLEY

NGR SE 237 273

CONDITIONS

SECTION A - GENERAL

- A1. This licence relates to the area as indicated on the attached plan Nos. P1627/1, WM/20.01.31E/100A.
- A2. The licence holder shall operate the site in accordance with the plan No. WM/20.01.31E/100A and details attached to this licence, unless contradicted or superceded by the conditions of this licence, which at all times shall take precedence.
- A3. The licence holder shall notify the Environment Agency, hereinafter called the Agency, in writing of any proposed change in the conduct of operations, as detailed in condition A2, within 5 working days of the change, unless specified otherwise in the following conditions which shall take precedence at all times.
- A4. By 1st June 1996, the working plan shall be updated, as may be necessary, with as built plans showing the site infrastructure in place on the date that the licence takes effect.
- A5. The Agency shall be informed immediately, in writing, of any proposed or actual change in the status of the licence holder which could have a material effect on the licence e.g. the name of the holder, bankruptcy, appointment of an administrative receiver or company liquidation.
- A6. The activity permitted by this licence is the keeping of waste.
- A7. Waste storage operations shall be limited to containers situated within the licensed area as shown on the plans attached to this licence and described further in the working plan.
- A8. The financial provision for meeting the obligations under this Licence set out in the Agreement made between the Licence Holder and the Agency dated 2 April 1998 shall be maintained by the Licence Holder throughout the subsistence of this Licence and the Licence Holder shall produce evidence of such provision whenever required by the Agency.

SECTION B - PERMITTED WASTE TYPES & QUANTITIES

- B1. Subject to condition B2 below the types and quantities of waste accepted at the site shall be as described in the attached schedule ref. S1627/1.
- B2. No wastes which are likely to cause pollution of the environment or harm to human health shall be accepted at the site except as described on the attached schedule ref. S1627/1.
- B3. The types of waste permitted for acceptance under the terms of this licence shall exclude any waste that is Special Waste as defined by the Special Waste Regulations 1996.
- B4. The quantity of waste stored on site at any time shall not exceed 100 tonnes (including upto 3000 litres of oil).

SECTION C - SITE INFRASTRUCTURE

- C1. All construction, surfacing, drainage and other works as described in the plan and details attached to this licence shall be completed before the commencement of waste transfer operations on site under the terms of this licence.
- C2. The road from the site entrance to the waste transfer area shall be maintained. The road shall have a hard surface and be drained to prevent accumulations of mud, stone or other material adhering to the wheels of vehicles leaving the site. Adequate waiting and unloading space shall be provided within the site.
- C3. By 1st June 1996 a site identification board of durable materials and finish shall be displayed and maintained at a suitable point at the site entrance, showing the licence number, the hours when the site is open, the name and address of the operator, and the address and telephone number of the Agency responsible for issuing the site licence.
- C4. No waste transfer operations shall be carried out unless the site has been secured to prevent unauthorised vehicular access.
- C5. No waste transfer operations shall be carried out unless gates capable of preventing unauthorised vehicular access, are erected at the site entrance.
- C6. All walls, fences and gates shall be maintained to ensure the security of the site at all times.
- C7. All concreted areas shall be repaired or reinstated as necessary to ensure they have an impermeable surface.
- C8. All tarmac areas shall be maintained.

- C9. All drainage works and any other ancillary equipment shall be maintained in working order.
- C10. The drainage of the site shall be as described in the details attached to this licence.
- C11. Any proposals for amendment to the drainage or surfacing of the site shall be submitted for the prior approval of the Agency.
- C12. All bulk liquid storage containers used in connection with the operation of the site shall be located within a bund to ensure containment of the liquid if for any reason leakage occurs. The floor and walls of the bund shall be watertight and capable of holding 110% of the capacity of the container. All pipework and the outlet valve shall be contained within the bund, and any tap valve shall be so arranged as to discharge vertically downwards and shall be kept locked shut when not in use.
- C13. Any accumulations of water or other liquid within the bund surrounding a bulk liquid storage container shall be removed so as to retain the effectiveness of the bund and the liquid disposed of in the manner described in the working plan.

SECTION D - SITE OPERATIONS - GENERAL

- D1. Subject to condition D2 below (unless agreed otherwise in writing by the Authority) operating hours for waste transfer operations shall be 0800hrs to 1900hrs Monday to Friday, 0800hrs to 1600hrs on Saturday and 0900hrs to 1600hrs on Sunday.
- D2. No waste transfer operations shall be carried out during the hours covered by official lighting up times (i.e. half an hour after sunset to half an hour before sunrise) unless lighting is provided.
- D3. The gates at the site entrance shall be kept locked at all times when the site is unattended and all precautions shall be taken to prevent unauthorised access to the site.
- D4. Whenever waste transfer operations are being carried out the site shall be adequately manned to ensure that waste is handled in compliance with the conditions of this licence.
- D5. Whenever waste transfer operations are being carried out the site shall be supervised by technically competent management to ensure that waste is handled in compliance with the conditions of this licence. The Agency shall be informed immediately, in writing, of any change in the management of the site.
- D6. The terms of the site licence shall be made known to any person who is given responsibility for the management or control of the site and a copy of the licence shall be available on the site whenever the site is operational.

SECTION E - SITE OPERATIONS - WASTE HANDLING

- E1. Waste received shall be regularly inspected to ensure that it conforms to the requirements of the licence.
- E2. Any waste which has been accepted at the site and is subsequently found to be contrary to condition B2 of this licence, shall be dealt with as described in the details attached to this licence and the Agency informed at the earliest opportunity.
- E3. The Agency shall be given not less than 24 hours notice of the proposed method of dealing with any waste as described in condition E2. The waste shall be removed from the site within 7 days of the date of its discovery unless agreed otherwise with the Agency.
- E4. Waste shall not remain on site for longer than as detailed in the working plan. Any change to these details shall not be implemented without the prior written consent of the Agency. The changes shall form part of the working plan once the Agency has given consent to the changes.
- E5. Containers of waste types which could become windblown shall be handled as described in the working plan. Any changes to these details shall not be implemented without the prior written consent of the Agency. The changes shall form part of the working plan once the Agency has given consent to the changes.
- E6. Any items or material of value recovered from the waste shall be stored as shown on the plans and details attached to this licence, and shall at all times be maintained in a tidy condition.
- E7. Any vehicle batteries received at the site shall be stored in such a manner as to prevent the spillage or leakage of acid.

SECTION F - SITE OPERATIONS - ENVIRONMENTAL CONTROL

- F1. The deposit on the public highway of mud, stone or other materials caused by the operation of the site shall be prevented.
- F2. Precautions shall be taken to prevent the pollution of any water accumulating on the site and the uncontrolled discharge of contaminated water from the site.
- F3. Surface water from the site shall be passed through an oil / grit interceptor prior to discharge to the public sewer. The interceptor shall be suitably designed and constructed to deal with the volume of surface water arising on the site.
- F4. The oil / grit interceptor shall be inspected regularly and shall be maintained and emptied so as to retain its effectiveness.

- F5. Any spillage of liquid shall be dealt with immediately to clear or alleviate the effect of the spillage and adequate quantities of dry sand or absorbent materials shall be on hand.
- F6. At all times the site shall be kept in a tidy condition. Any loose waste which may be lying on the site shall be gathered up and disposed of tidily each day.
- F7. Any containers holding oil shall be stored only in a designated area of the site, in such a manner as to prevent spillage or leakage of oil. The designated area shall be surfaced with concrete or other suitable impermeable material in order to prevent contamination of the underlying ground. All waste oil shall be emptied into a storage tank as soon as possible after receipt and in any case before the end of the working day.
- F8. No materials shall be burned within the boundaries of the site and a fire at the site shall be regarded as an emergency and immediate action shall be taken to extinguish it.
- F9. The Agency shall be immediately informed of any incident that could give rise to pollution of the environment, harm to human health or could be seriously detrimental to the amenities of the locality, including any fire.
- F10. Action shall be taken to deal effectively with any vermin or pests on the site.
- F11. All necessary action shall be taken to prevent the dissemination of odour, fumes, dust, grit or windblown material.

SECTION G - RECORD KEEPING

- G1 A record shall be kept of all wastes received and of all materials (wastes and recovered materials) removed from the site. The records shall include the following for each vehicle load of waste/materials;
 - a). origin of waste by local authority district,
 - b). time and date received,
 - c). quantities in tonnes received and waste type - as specified by the Agency,
 - d). time and date removed,
 - e). quantities in tonnes removed and waste type - as specified by the Agency
 - f). destination of materials removed by local authority district
- G2. A summary of the information specified in condition G1 above shall be submitted to the Agency, in a format and at a frequency as required by the Agency.

FOOTNOTES

"Technically competent" shall have the meaning given in the Waste Management Licensing Regulations 1994.

Fridges and freezers contain chlorofluorocarbons (CFCs) which are believed to damage the ozone layer and thereby present a threat to human health. The CFC coolant can be recovered from such appliances and reused. The Agency would encourage the recycling of CFCs and support your participation in such a recovery scheme.

Other comments:

Comments have been received on the following matters. You are advised to contact the relevant authority direct for further information.

Yorkshire Electricity, P.O. Box 89, Parry Lane, Bradford BD4 8TW.

I wish to inform you that we have equipment in the area for which access to repair, maintain and renew will be required at all times. I would also emphasize that any excavation to be done by hand, no picks or pointed implements to be used in the vicinity of our cables to the west of the site. Care should be taken if erecting fence posts etc.

Yorkshire Water Services Ltd., Trade Effluent Control Dept., P.O.Box 201, Broadacre House, Vicar Lane, Bradford, BD1 5PZ.

OVERHEAD POWER CABLES

The Health and Safety Executive have advised that if overhead power lines cross the site hazards can arise due to contact with such lines if appropriate precautions are not taken. Guidance on safe practices is contained in the Health and Safety Executive Guidance Note GS6 (obtainable from HMSO) and from the booklet 'Safety Precautions in Connection with

OTHER STATUTORY REQUIREMENTS

Licence holders should note that this resolution was passed under Section 11 of the Control of Pollution Act 1974 and does not provide them with exemption from any other statutory requirements. On 1 April 1996 it will be treated as a waste management licence.

From 1st April 1996 the licence holder may apply to the Authority to have the conditions of this licence modified, pursuant to Section 37 of the Environmental Protection Act 1990.

WML 1627.Modification. February 1999

It should also be noted that even though the licence holder may comply with all the above conditions and any other requirements deemed appropriate, this does not necessarily exclude the licence holder from prosecution should subsequent pollution of the environment occur. **IT IS THE RESPONSIBILITY OF THE LICENCE HOLDER TO PREVENT POLLUTION.**

LICENCE NO. 1627
Nab Lane Household Waste Site
Birstall, Batley

SCHEDULE OF WASTES
AUTHORISED FOR ACCEPTANCE UNDER CONDITION 8

REF. S1627/1

WASTE TYPE (SOLID)	MAXIMUM DAILY QUANTITY ACCEPTED TONNES
HOUSEHOLD WASTE (which may include uncontaminated earth and excavation waste, uncontaminated bricks, stone, solid concrete, breeze blocks, building sand, gravel, tiles, glass, other ceramic materials and slate etc., ash from solid fuel heating, garden waste, general household refuse, domestic appliances and other scrap metal, waste oil and parts from private motor vehicles, empty paint and solvent drums, animal and food wastes, dusty wastes from DIY)	100

MAXIMUM ANNUAL QUANTITY OF WASTE ACCEPTED 7499 TONNES

The above schedule excludes all Special or difficult waste as defined below, other than small quantities which arise as part of normal household waste such as tyres, empty drums, paint and solvent, animal and food wastes and dusty wastes from DIY activities.

Special waste has the same meaning as in the Control of Pollution (Special Waste) Regulations 1980 or successor regulations and difficult waste means a waste which by virtue of its chemical composition or physical form requires a particular handling or disposal procedure.
