THE * CUMBRIA COUNTY COUNCIL

HEREBY GRANT a Waste Disposal Licence, pursuant to an application dated
, in respect of the following:

Full name and address of licence holder	James Cropper & Co. Ltd., Burneside Paper Mills, Kendal, LA9 6PZ.
Full name and address of local representative (if any) of licence holder	-
Location of site to which this licence relates	O.S. Field Nos. 6144 and 8025, Burneside, Nr. Kendal.
Form of deposit or disposal to which this licence relates	Landfill.
Types of waste of which deposit or disposal is authorised and any limitation as to quantity	See Condition Nos. 2 and 3.

This Licence is granted subject to the following conditions:—

(See attached Schedule.)

Dated 16th February 1982. (Signed) A. Fraser.(Designation) County Solicitor

THE LICENCE HOLDER SHOULD READ CAREFULLY THE NOTES OVERLEAF.

* Insert name of Waste Disposal Authority.

LICENCE HOLDER: James Cropper & Co. Ltd.,
Burneside Paper Mills,
Kendal

CONTROL OF POLLUTION ACT 1974
LANDFILL SITE AT O.S. FIELD NOS.
6144 & 8025, BURNESIDE, NR. KENDAL.

SOUTH LAKELAND DISTRICT

CONDITIONS

WORKING PLAN

- 1 No deposit of waste shall take place unless at least one month previously a working plan, giving details of the proposed conduct of operations at the site has been submitted to the Waste Disposal Authority; and the licence holder shall notify the Waste Disposal Authority of any proposed change in the actual conduct of operations from the proposals shown in the plan, as altered by any previously notified changes, at least one month before the proposed change is implemented.
- 2 Settled sludge from paper-making processes and occasional construction/demolition wastes only shall be deposited.
- 3 The quantity of settled sludge deposited daily shall not exceed 100 tonnes.

SITE PREPARATION & WORKS

- 4 The access road to the site shall be maintained to the reasonable satisfaction of the Waste Disposal Authority.
- 5 No deposit shall take place until a site identification board of durable material and finish has been displayed at the site entrance, showing the hours when the site is open and giving the name, address and telephone number of the operator and of the Waste Disposal Authority responsible for issuing the site licence.
- 6 No deposit shall take place until leachate arisings from the site are prevented from discharging to the River Kent or any surface waters by providing a collection facility on site and either:-
 - (a) sealing the existing stone drain and pumping collected leachate and spring waters to surrounding farmland by spray irrigation; or
 - (b) isolating and piping spring water arisings if free of contamination to the existing stone drain for discharge to the River Kent and the removal of the leachate from deposits on site, being treated by spray irrigation over the site.

This is to be carried out to the satisfaction of the North West Water Authority.

- 7 Gates and fencing shall be provided to the reasonable satisfaction of the Waste Disposal Authority, and all reasonable precautions shall be taken to prevent unauthorised access to the site.

- 8 Warning notices shall be displayed at intervals along the site boundary to inform the public of the hazards of the sludge waste. The number and location of these shall meet the approval of the Waste Disposal Authority.

SITE OPERATION

- 9 The site shall be adequately manned and supervised during working hours.
- 10 The width of the working face shall not exceed 60 metres.
- 11 Sludge disposal shall operate over approximately 10 metre widths of the working face, each width being for one working day only during each working week so as to permit drainage and consolidation to take place before further deposits are made on the same area.
- 12 Compaction and levelling of sludge and any construction/demolition deposits shall be carried out along the full width of the working face at least monthly.
- 13 The depth of a layer of waste shall not, after initial compaction, exceed 2.5 metres (8 feet).
- 14 No waste material shall be burned within the boundaries of the site, and a fire at the site shall be regarded as an emergency and immediate action shall be taken to extinguish it. All outbreaks of fire shall be notified forthwith to the disposal authority.
- 15 A record shall be kept of the types and quantities of waste deposited. The records shall be available for inspection by officers of the Waste Disposal Authority during operating hours at the site. Copies of the records including nil-returns shall be sent each month to the County Surveyor and Bridgemaster to arrive not later than the 14th day of the month subsequent to the month to which the record relates.
- 16 The terms of the site licence shall be made known to any person who is given responsibility for the management or control of the site and a copy of this shall be displayed in his office.
- 17 Final restoration, ie soiling, grading, seeding and planting shall be carried out progressively as areas of landfill are completed according to the terms of the planning consent.
- 18 The permeability of the bund to the west of the site should be adequate to prevent seepage of leachate off site.
- 19 The sampling chambers shall be kept accessible including the new chamber to be provided immediately downstream of the site.
- 20 Upstream and downstream samples shall be taken and analysed by the applicant and the results forwarded monthly to the Waste Disposal Authority and the North West Water Authority. The frequency of sampling and parameters for analysis to be agreed between the applicant and the North West Water Authority.
- 21 No waste materials shall be burned within the boundaries of the site.

A. Frazer
.....
County Solicitor.
