Variation notice with introductory note

Environmental Permitting (England & Wales) Regulations 2007

Allenford Farms Pig Unit

Mr. Roy Shepherd,
The Earl of Radnor,
Viscount Folkestone and
Mr. Robert Shepherd
(trading as Allenford Farms)
South Allenford Farm
Damerham
Fordingbridge
Hampshire
SP6 3JW

Variation notice number
EPR/AP3239US/V003

Allenford Farms Pig Unit
Permit number EPR/AP3239US

Introductory note

This introductory note does not form a part of the permit

The following notice, which is issued pursuant to regulation 20 and Part 1 of Schedule 5 of the Environmental Permitting (England and Wales) Regulations S.I.2007 No. 3538 (the Regulations), gives notice of the variation of an environmental permit to operate a regulated facility.

The applicant has applied for a variation to take account of the construction of a new slurry store to help the operator comply with the new Nitrate Pollution Prevention Regulations 2008. The new store is an above ground tin tank which will be sited next to the existing tank. Both stores will be covered using a layer of LECA expanded clay added to the surface of the slurry after the first fill.

The operator is also planning some alterations to the Trobridge buildings number 2 and 3 to form one fully slatted building of the same dimensions. There will be no increase in pig numbers as the footprint remains the same. The building will have an insulated tin roof and will be liquid fed. Slurry handling system will remain unchanged.

Schedule 1 of this notice lists any deleted conditions, Schedule 2 lists any amended conditions and Schedule 3 lists any conditions that have been added.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.
