### Introductory note

#### **This introductory note does not form a part of the notice**

The following notice gives notice of the variation of an environmental permit.

The main features of the permit are as follows.

This application is to increase the site boundary and to update the permit to the modern bespoke template conditions. This boundary increase will cover an area of a neighbouring waste permitted facility (EAWML65464) which it is proposed to be transferred to Veolia ES (UK) Limited in the near future.

The schedules specify the changes made to the original permit.

The status log of the permit sets out the permitting history, including any changes to the permit reference number.
