

OUTGOING

DISPOSAL LICENCE NO: DL 393
CONTROL OF POLLUTION ACT 1974
WASTE DISPOSAL LICENCE

LICENCE HOLDER:

CLEANAWAY LIMITED

PERMIT

ADDRESS OF FACILITY:

WALBROOK WHARF
UPPER THAMES STREET
LONDON
EC4R 3TD

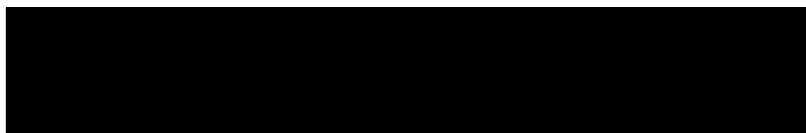

TYPE OF WASTE

DISPOSAL FACILITY:

WASTE TRANSFER

The London Waste Regulation Authority (hereinafter called the 'LWRA') pursuant to section 5 of the Control of Pollution Act 1974 hereby authorises the use by Cleanaway Limited (hereinafter called 'the holder'), registered office The Drive, Warley, Brentwood, Essex, CM13 3BC of the site known as Walbrook Wharf, Upper Thames Street, London EC4R 3TD as shown blocked on location drawing Reg. No. LWRA/1684/86, holder's drawing No. WW/TS/01, dated August 1986 (which site is hereinafter called the 'facility') for the reception and transfer of wastes subject to the conditions attached hereto.

(This licence does not exempt the holder from complying with other legislation, in particular the Radioactive Substances Act 1960, the Health and Safety at Work, etc. Act 1974 and planning, transport, water protection and environmental health legislation).

Signed: Director, London Waste Regulation Authority, the officer appointed for this purpose.

Dated this

30th

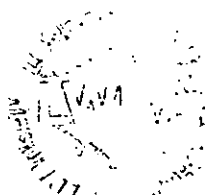

day of

June

1992.

This licence is transferred in accordance with Section 40 of the Environmental Protection Act 1990 to:

Cory Environmental Limited
25 Wellington Street
London
WC2E 7DA

with effect from 26 September 1995, being the date of transfer agreed between the LWRA and the Applicants.

**CONTROL OF POLLUTION ACT 1974
WASTE DISPOSAL LICENCE**

1.0 WASTE TYPES & THROUGHPUT

- 1.1.1 No waste other than the controlled household, industrial and commercial wastes as defined in Section 30 of the Control of Pollution Act 1974 and the Collection and Disposal of Waste Regulations 1988 as are listed below and detailed in the appendix, shall be received or handled at the facility.

Maximum tonnes per day

- | | | | |
|------|---------------------|---------------------------------|--------------|
| i) | Waste category A | : Inert waste | 50 tonnes |
| ii) | Waste category B(i) | : General non-putrescible waste | } 420 tonnes |
| iii) | Waste category C | : General putrescible waste | |

- 1.1.2 No 'special waste' as defined by the Control of Pollution (Special Waste) Regulations 1980 (S.I. 1980 No. 1709), shall be handled at the facility.

- 1.1.3 No clinical waste as defined by the Collection and Disposal of Waste Regulations 1988 (S.I. 1988 No. 819) shall be handled at the facility.

2.0 CONTROL & SUPERVISION

- 2.1.1 Location and layout drawings together with the document(s) dated August 1986 and 16 April 1992 detailing intended methods of operation supplied in or at the time of the application for this licence and any later drawings or written statements received by the LWRA in substitution for or in augmentation of such drawings or statements, are hereinafter referred to as 'the working plan' and give details of how operations are to be conducted at the facility. The working plan shall be deemed to be part of this licence.
- 2.1.2 Waste shall not be received or handled at the facility until such time as the working plan referred to in condition 2.1.1 above is being complied with unless otherwise agreed by the LWRA in writing.

CONTROL OF POLLUTION ACT 1974
WASTE DISPOSAL LICENCE

- 2.1.3 Notification shall be made in writing to the LWRA of any proposed change in the actual conduct of operations from the proposals shown in the working plan, as altered by any previously notified changes, at least one month before the proposed change is implemented and such change shall not be implemented without the prior written consent of the LWRA.
- 2.1.4 Subject to the terms of this licence the holder shall conduct its operations in accordance with the working plan.
- 2.2 Sufficient management and technical supervision shall be provided at the facility throughout operating hours to ensure that operations comply with this licence and the working plan.
- 2.3.1 An identification board of durable material and finish, and in a form and location to be approved by the LWRA shall be displayed at the entrance to the facility.
- 2.3.2 The board shall show the following information which shall be easily readable from the public highway:-
- i) the name and address of the facility
 - ii) the days and hours when the facility is permitted to be open for the receipt of waste
 - iii) the name, address and telephone number (with extensions if appropriate) of the operator, its local agent if any, the LWRA and any other person to contact in an emergency.
- 2.3.3 The board shall be maintained in a legible condition.
- 2.4.1 The facility will be provided with a control office which shall be equipped with a telephone.
- 2.4.2 The terms of this licence and working plan and any alteration thereto made pursuant to condition 2.1.3 hereof, shall be made known to any person who is given responsibility for the management or control of the facility.
- 2.4.3 A copy of this licence shall be displayed at the facility control office where it can be read by the holder's employees at the facility and any visitors.
- 2.4.4 A copy of the working plan shall be kept at the facility control office and shall be readily available.

**CONTROL OF POLLUTION ACT 1974
WASTE DISPOSAL LICENCE**

- 2.5.1 Equipment shall be provided and arrangements made to contain and collect spillage of waste anywhere on the facility as necessary.
- 2.5.2 The barge housing and dock shall be drained of water every thirteen weeks and the dock floor shall be completely cleared of all waste.
- 2.6.1 No laden barge shall leave the barge housing unless the barge covering shutters have been securely closed.
- 2.6.2 No vehicle shall be allowed to enter the facility for the purpose of depositing or collecting waste unless it is designed and used in such a manner as to prevent spillage of waste or deposit of liquid or other debris on the entrance and exit roads within the facility.
- 2.6.3 All vehicles, barges and containers holding waste, using or being parked, moored or placed at the facility other than in the course of loading or unloading shall be adequately covered if there is any material risk of any of the contents spilling out or being blown away.
- 2.7 Appropriate alternative arrangements shall be implemented for the disposal or transfer of waste in the event of an interruption of normal operations extending beyond 24 hours.
- 2.8 All temporary cessations of a major part of the operations which require the transfer or diversion of wastes delivered at the facility to facilities elsewhere for a period longer than three consecutive days shall be notified in writing to the LWRA giving details of the diversion arrangements.
- 2.9 The holder shall inform the LWRA in writing of its intention to cease operations 14 days prior to the date on which they are due to cease.
- 3.0 SPECIAL REQUIREMENTS REGARDING STORAGE
- 3.1 Waste shall not be stored in a manner which may endanger public health.
- 3.2.1 Waste shall only be stored within the barges moored in the barge housing, open dock or campshed as shown on drawing reg. no. LWRA 1687/86, holders drawing no. WW/TS/03, dated August 1986.
- 3.2.2 No more than 6 barges holding waste shall be moored in the areas referred to in condition 3.2.1 above at any one time.

CONTROL OF POLLUTION ACT 1974
WASTE DISPOSAL LICENCE

- 3.3.1 No fully laden barge shall remain within the barge housing or the dock for longer than 48 hours except during weekends, public holidays or during abnormal tides or weather conditions.
- 3.3.2 No fully laden barge shall remain on the campshed for more than 60 hours except during weekends, public holidays or during periods of abnormal tides and weather conditions.

4.0 DESIGN & CONSTRUCTION

- 4.1 The facility shall be secured at all times when unattended.
- 4.2 The ground surface of the facility and all internal roadways shall be properly constructed concrete hardstanding, unless agreed to the contrary by the LWRA and this shall be properly maintained and drained in accordance with the working plan.

5.0 PUBLIC HEALTH

- 5.1.1 No waste shall be burnt at the facility and emergency provisions shall be made to allow for the discharge of loads found to be on fire or in an otherwise dangerous condition.
- 5.1.2 If a load is found to be on fire the Fire Brigade shall be informed immediately.
- 5.1.3 The holder shall notify the LWRA immediately of any outbreak of fire using the Authority's emergency telephone number and the details shall be confirmed in writing within 48 hours.
- 5.2 Persons employed at the facility shall be instructed in the procedure to be adopted in case of fire, including evacuation and fire-fighting.
- 5.3.1 Instructions for dealing with fires as supplied by the Fire Brigade shall be displayed where all persons employed at the facility can readily read them.
- 5.3.2 These instructions shall be framed and glazed or otherwise protected to avoid defacement.
- 5.4.1 Water supplies for fire-fighting purposes and portable fire-fighting equipment shall be available and maintained as recommended by the Fire Brigade.
- 5.4.2 Water supplies shall be suitably protected against freezing.

CONTROL OF POLLUTION ACT 1974
WASTE DISPOSAL LICENCE

- 5.5 Adequate access to the facility for Fire Brigade vehicles shall be provided and maintained at all times.
- 5.6 Regular inspections of the facility shall be made and any infestation or suspected infestation shall be reported immediately to the relevant Local Authority and contractor and any necessary action (such as, but not limited to, insecticide treatment, rodents, insect or bird deterrent measures) taken to eliminate such infestation.
- 5.7 Adequate lighting shall be provided and used to cover all operating areas of the facility.
- 5.8 No pedestrians shall be allowed within the vicinity of the tipping or loading areas whilst any machine or vehicle is operating. Notices to this effect and to the satisfaction of the LWRA shall be displayed where they can be easily seen.

6.0 ENVIRONMENTAL POLLUTION

- 6.1 The activities to which this licence relates shall not be so carried on as to cause pollution of water or danger to public health or become seriously detrimental to the amenities of the locality affected by the activities.
 - 6.2.1 No discharge arising from operations on the facility shall be made or allowed to take place either directly or indirectly to any river, stream, watercourse, underground water or sewer except those which are consented to or approved by the National Rivers Authority and/or relevant water company. A copy of any such consent or approval shall be sent by the holder to the LWRA.
 - 6.2.2 Where such consent includes a requirement for safeguarding works, such works shall be carried out to the satisfaction of the LWRA, the National Rivers Authority and/or relevant water company.
- 6.3 An effective dust suppression system shall be installed and used during all waste handling activities, including loading and unloading.
- 6.4 Suitable measures shall be undertaken to limit the noise and vibration caused by machinery and vehicles operating at the facility (including their proper maintenance and use) which may be detrimental to the amenities of the locality.
- 6.5 Odours shall be suppressed so as to protect public health and the amenities of the locality.

**CONTROL OF POLLUTION ACT 1974
WASTE DISPOSAL LICENCE**

- 6.6 Effective measures shall be taken to:
- (a) Prevent litter from being blown from the facility to anywhere outside the facility.
 - (b) Ensure that the facility, including its boundaries, is kept clear of litter and other rubbish irrespective of its source.
 - (c) Prevent spillage of waste into adjacent river.
- 6.7 The holder must ensure vehicles leaving the facility do not cause the deposit of any liquid, mud, or other debris on the loading area, or the internal and external roadways.
- 7.0 RECORD KEEPING
- 7.1.1 Records of the daily input and output shall be kept in such a manner that the following information may be easily extracted:-
- i) the registration number of all vehicles delivering waste and the type and weight in tonnes (or the volume in cubic metres) of each load of waste being deposited each day.
 - ii) the name and number of barges removing waste from the facility each day, and type and the volume in cubic metres.
 - iii) documentary evidence of the final place of deposit which must be either to a facility where a waste disposal licence, issued under section 5 of the Control of Pollution Act 1974, is in force (the conditions of which authorise the deposit or use, as the case may be, of the type of waste referred to in (ii)); or to a facility which is exempt from the requirements of this Act. This evidence shall include the proper full name and address of the facility, the quantity and type of waste disposed of and the date.
- 7.1.2 A weekly summary of the foregoing records shall be made using an approved system or form and shall be submitted monthly to the LWRA, to be received not later than the fifth working day of the following month.
- 7.1.3 Records shall be kept of the dates of inspections and treatments used in respect of condition 5.6.

**CONTROL OF POLLUTION ACT 1974
WASTE DISPOSAL LICENCE**

- 7.1.4 Records shall be kept of the dates of the dock cleaning in respect of condition 2.5.2.
- 7.1.5 All such records as specified in this licence shall be made available to the LWRA and to any officer of the LWRA authorised in writing to enter the facility in accordance with section 91 of the Control of Pollution Act 1974 as and when required.
- 7.2 The holder shall notify the LWRA in writing within 14 days of any change of address. If the holder is an individual or partnership the address to be notified is the residential address. If the holder is a company the addresses to be notified are the registered address and the residential addresses of the director(s) and secretary.

8.0 GENERAL CONDITIONS

- 8.1 No controlled waste shall be deposited at the facility and no plant or equipment shall be used for the purpose of disposing of controlled waste unless, the time of such deposit or use, each of the obligations imposed by the conditions set out elsewhere in this licence has been satisfied.

**CONTROL OF POLLUTION ACT 1974
WASTE DISPOSAL LICENCE**

DEFINITIONS

"Hours of darkness" means the time between half an hour after sunset and half an hour before sunrise.

Notwithstanding the above, words and phrases in this licence have the meaning ascribed to them by the Control of Pollution Act 1974 and its associated legislation, unless the context requires otherwise.

**CONTROL OF POLLUTION ACT 1974
WASTE DISPOSAL LICENCE**

APPENDIX

WASTE CATEGORY A: INERT WASTE

Solid or granular material which either does not decompose or decomposes only very slowly and is virtually insoluble in water.

Subsoil

Topsoil

Hardcore

Brickwork

Stone

Concrete

Clay

Sand

Excavated Road Metal

Glass, Pottery, China, Enamels, Ceramics, Mica and Abrasives.

EXCLUSIONS

Wastes mixed or contaminated with hazardous amounts of any noxious, poisonous or polluting substances.

Sludges or liquids.

APPENDIX (continued)

CONTROL OF POLLUTION ACT 1974
WASTE DISPOSAL LICENCE

WASTE CATEGORY B(i): GENERAL NON-PUTRESCIBLE WASTE

Solid, granular or broken materials which may decompose slowly, but are only slightly soluble in water.

Wood (including sawdust and sanderdust)
Paper (including oiled and tarred paper)
Cardboard and fibreboard
Wood products (hardboard, chipboard)
Plastics as finished products or manufacturing scrap only.
Plasterboard
Iron, steel, aluminium, brass, copper, tin, zinc
Leather
Wool, cotton, linen, hemp, sisal, hessian, string, rope, and any other natural or man-made fibre
Cork, ebonite, kapok
Shot blasting residues
Silicate slag
Boiler scale
Carbon, kieselguhr, diatomaceous earth
Oxides of iron, magnesium, zinc, aluminium and titanium
Hydroxides of iron and calcium
Calcium carbonate, calcium sulphate (gypsum), magnesium carbonate
Ash, clinker
Fully burnt incinerator residues
Cement
Decontaminated empty containers less than 50 litres capacity.

EXCLUSIONS

Wastes mixed or contaminated with hazardous amounts of any noxious, poisonous or polluting substances.

Metal swarf, dusts, particulate scrap
Leather processing waste
Toxic metal slags
Pulverised fuel ash and vanadium contaminated ash.

Sludges or liquids.

APPENDIX (continued)
CONTROL OF POLLUTION ACT 1974
WASTE DISPOSAL LICENCE

WASTE CATEGORY C: GENERAL PUTRESCIBLE WASTE

Materials which may decompose and may consist in part of soluble matter which could cause pollution if allowed to enter ground or surface water systems.

Waste food or materials that include any food, or vegetable matter

Floor sweepings

Vegetable matter

Animal carcasses or parts thereof

Animal processing waste

Animal based glue wastes

Cellulose waste

Trees, bushes

Garden waste

EXCLUSIONS

Wastes mixed or contaminated with hazardous amounts of any noxious, poisonous or polluting substances.

Horticultural chemical waste.

Sludges or liquids.
