Introductory note

This introductory note does not form a part of the notice.

The following notice gives notice of the transfer of an environmental permit to a new operator (the transferee).

This notice confirms the transfer of the permit in full to Urbaser Environmental Limited who is now the operator. The activities are unchanged and remain as currently permitted. The operator has confirmed that an environmental management system (EMS) is in place that identifies and reduces the risk of pollution on the date of transfer.

We consider that in reaching our decision to transfer the permit we have taken into account all relevant considerations and legal requirements.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.
