Introductory note

This introductory note does not form a part of the notice

The following notice gives notice of the variation of an environmental permit.

The operator has applied to vary their permit to add four waste codes (17 06 01*, 17 06 04, 17 06 05* and 17 08 02) to the permitted wastes. As a result of the addition of asbestos waste Table 1.1 has been amended to clarify that asbestos waste cannot be treated and to add the hazardous waste limit to keep this regulated as a waste operation.

The schedules specify the changes made to the original permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.
