Transfer application number

EPR/LP3032NC/T001

Permit number

EPR/LP3032NC

8-11 Foster Street

Permit number EPR/LP3032NC

Introductory note

This introductory note does not form a part of the notice

The following notice gives notice of the transfer of an environmental permit to a new operator (the transferee).

Olleco have requested the transfer of Environmental Permit EPR/FP3294CT (formerly waste management licence WML 50532) from Sanders Products (Liverpool).

The facility at 8-12 Foster Street will comprise of:

- a waste vegetable oil and rendered animal fat storage and treatment facility,
- a biodiesel production facility.

Waste vegetable oil and UCO is stored on site prior to treatment to remove moisture, impurities and packaging. A proportion of the treated oil is used to produce biodiesel. The remainder is sent for recovery elsewhere.

Tallow is also used as an alternative feedstock for the production of biodiesel. Tallow is stored within the site boundary but is not treated on site.

Biodiesel is produced by the trans-esterification process. The biodiesel production facility comprises of the transfer of the feedstock material from the storage tanks to the biodiesel unit, the storage of chemicals associated with the biodiesel process; the blending operation; the storage of finished biodiesel; and handling and disposal of wastes.

The raw materials for the installation are sourced from a variety of suppliers including restaurants, canteens and food factories.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.

Status log of the permit		
Description	Date	Comments
Waste Management Licence EAWML 50352 issued	29/06/05	Waste vegetable oil storage and treatment facility.
Variation application EPR/FP3294CT/V002 (formerly EAWML 50352)	Duly made 24/02/10	Application to increase the storage capacity and the increase the annual throughput.
Additional information received	18/06/10	Description of the state of the concreted area.
Additional information received	29/06/10	Clarification on the storage capacity.
