CONTROL OF POLLUTION ACT 1974
MODIFICATION OF WASTE DISPOSAL LICENCE

Licence No. 84

Site: Land at Field Nos. 6144 and 8025, Burneside, Kendal

Licence Holder: James Cropper, plc
Burneside Mills
Kendal
LA9 6PZ

1. The migration of landfill gas from the site shall be monitored by the provision within six months of the date of issue of this modification of monitoring boreholes, to a specification agreed with the Waste Disposal Authority, located at agreed intervals around the site perimeter, set back from infilled areas and drilled into surrounding virgin strata to extend to a depth of 5 metres below the base of the site.
2. A programme of sampling and testing for the presence of landfill gas within the monitoring boreholes surrounding the site shall be submitted to the Waste Disposal Authority for approval within six months of the date of this modification and following approval, implemented.
3. Results of any landfill gas shall be recorded and forwarded each month to the Licensing and Industrial Waste Officer, Cumbria County Council, so as to arrive not later than the 14th day of the month subsequent to the month to which the record relates.
4. Should any results of monitoring from boreholes surrounding the site reveal the presence of methane in excess of 1% by volume (20% LEL) or carbon dioxide in excess of 0.5% by volume, then the site shall be vented in a manner agreed with the Waste Disposal Authority so as to eliminate the presence of those gases from the boreholes.
5. In undertaking any drilling or excavation work in respect of monitoring and control of landfill gas, the licence holder shall take precautions to avoid disturbing any underground cables, drains or other services.
