Joanna Flindall - Surface water discharge

From: "Michael Jones" <michael.jones@sjonescontainers.co.uk>
To: <joanna.flindall@environment-agency.gov.uk>
Date: 26/04/2007 15:20
Subject: Surface water discharge

Dear Joanna,
Further to our conversation today I confirm that my Company number 3747019 has been the tenant on the site at Anglian Road Aldridge Walsall WS9 8ET since 1999. The owner of the land is the administrator of my SIPP pension scheme Suffolk Life. The company was originally called Truck Engineering Ltd and the name was changed to S Jones Container Services Ltd on 15th May 2002. The name Truck Engineering Ltd is now owned by a non-related company which does not trade from these premises. S Jones Container Services Ltd is now responsible for water discharge charges that were originally Truck Engineering Ltd's. I hope this enables you to resolve your issue. If you need any more information do not hesitate to ask.
Regards, Michael Jones

Dear [redacted]

Further to our telephone conversation I am writing to request that you change the company's name on the consent to discharge into the canal to Truck Engineering Ltd. Is it appropriate that I request you to ease/reduce the suspended solids requirement on the consent?

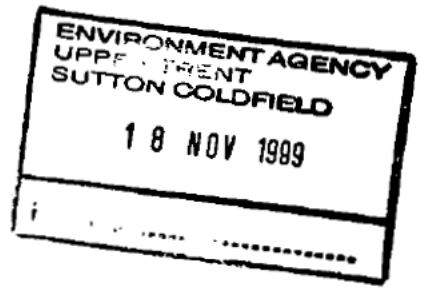

Whilst writing I can advise you that I have ordered 2 boxes of Decabloc A2L floculent blocks and anticipate putting them to use soon. I will advise you of other proposed measures when we next meet.

Thank you for your help.

Yours sincerely

DISCHARGES TO THE RUSHALL AND DAW END BRANCH CANAL

I refer to the application dated 31 July 1980 and now enclose, in duplicate, this Authority's formal Consent numbered WQ/7/1186 under Section 7 of the 1951 Act.

An applicant who considers that the conditions imposed by a consent served under the provisions of the Rivers (Prevention of Pollution) Acts 1951 to 1961 are unreasonable has the right of appeal to the Secretary of State for the Environment. The appeal must be made within three months from the giving of the consent.

Will you please note that this Consent does not absolve you from obtaining the consents which may be necessary under any other legislation or regulations.

As agreed in earlier correspondence the sampling points for the purposes of Sections 7(4) and 10(2) of the 1961 Act will be at the outlets from the oil interceptor and flow proportioning chamber, and as shown marked as such on the drawing accompanying the consent.

Yours faithfully
