OUTGOING

ENVIRONMENTAL PROTECTION ACT 1990 PART 2 (WASTE ON LAND)

WASTE MANAGEMENT LICENCE NUMBER: EA089

HOLDER OF LICENCE
(Name and Address)

R&R Contractors
79 Mortimers Lane
Fair Oak, Eastleigh. SO5 7BT

LOCATION OF FACILITY

Land at 79 Mortimers Lane
Fair Oak.

NATURE OF FACILITY

Transfer Station

HAMPSHIRE COUNTY COUNCIL

ENVIRONMENTAL PROTECTION ACT 1990

In pursuance of their powers under Sections 35-40 of the above mentioned Act, Hampshire County Council as the Waste Disposal Authority hereby GRANT a Waste Management Licence for the purpose of the deposit of controlled waste in respect of the facility detailed below in accordance with your application dated 23/06/92 as modified by the conditions of this Licence.

land at 79 Mortimers Lane,
Fair Oak, Eastleigh.

This licence is granted subject to compliance with the 36 conditions shown on the attached sheets numbered 1-12.3.

Waste Disposal Licence No: ..EA089.....
Date Issued: 16 June 1994
Checked by: S. Silveston
Controlled Copy No:
Total Controlled Copies Issued:4.....
Signed:

(1) This approval is for the benefit of the normal Licence Holder alone, and may only be transferred under the provisions of section 40 of the Environmental Protection Act 1990.

In respect of the facility to which this licence applies it is an OFFENCE:

To keep treat or dispose of controlled waste, or knowingly cause or knowingly permit controlled waste to be treated, kept or disposed of

- (i) in or on any land, or
- (ii) by means of any mobile plant, except under and in accordance with the conditions as specified in this Waste Management Licence.
- (iii) treat, keep or dispose of controlled waste in a manner likely to cause pollution of the environment or harm to human health.

Any approval given by this licence is only that required under the Act and does not relieve the Holder from the obligation to comply with any other applicable legislation.

RIGHTS OF APPEAL

(2) If an applicant/licence holder is aggrieved by the decision of the Waste Regulation Authority

- (a) in rejecting an application for a licence
- (b) in granting a licence subject to conditions
- (c) in refusing to modify the conditions of a licence
- (d) in modifying the conditions of a licence
- (e) in suspending a licence
- (f) in revoking a licence under section 38 or 42 of the Act
- (g) in rejecting an application for the transfer of a licence

he may appeal to the Secretary of State in accordance with Section 43 of the Environmental Protection Act 1990. Appeals must be notified within 6 months of the date of this notice to the Secretary, Department of the Environment Waste Management Division, Romney House, 43 Marsham Street, London SW1P 3PT.

The Secretary of State has power to allow a longer period for the giving of notice of an appeal but he will not normally be prepared to exercise this power unless there are special circumstances which justify this. Appeals must be notified within 6 months of the date of this notice to the Secretary, Department of the Environment Waste Management Division, Romney House, 43 Marsham Street, London SW1P 3PT.

The Secretary of State has power to allow a longer period for the giving of notice of an appeal but he will not normally be prepared to exercise this power unless there are special circumstances which excuse the delay in giving notice of an appeal.

FOR DECISIONS UNDER HEADINGS (d) OR (e) ONLY

Where a notice giving this authorities decision to modify or revoke a disposal licence includes a statement that for the purpose preventing or minimising pollution of the environment or serious harm to human health Section 43(4) of the Environmental Protection Act shall not apply to the decision, the notification of an appeal against the decision will not of itself render the decision

ineffective pending determination of the appeal. This decision does/does not contain such a statement.

If you consider that such a statement has been unreasonably included in the notice of decision, or the decision to suspend a licence was unreasonable, you may apply, under Section 43(7) of the Environmental Protection Act 1990, to the Secretary of State to determine whether the authorities action was unreasonable or not, (the address to write to is given above). If the Secretary of State determines that the authority acted unreasonable in including such a statement, the authorities decision will become ineffective while an appeal is pending and you will be entitled to recover compensation from the authority in respect of any loss you have suffered in consequence of the statement. Any dispute as to your entitlement to compensation or its amount shall be determined by arbitration.

1.0 GENERAL

- 1.1 This licence shall apply only to that land shown edged red on the attached Drawing No EA 089.
- 1.2 The handling and storage of controlled waste on the land shall not be carried out other than in complete accordance with the application dated 23/6/92 as modified by the conditions of this licence.
- 1.3 The licence holder shall inform the County Planning Officer in writing when the deposit of controlled waste in pursuance of this licence has ceased.

2.0 WASTE CATEGORIES

- 2.1 This licence PERMITS the deposit handling and storing of only those wastes specified in this condition:

- i) Sand, chalk, gravel and other naturally occurring earthspoils.
- ii) Concrete, brickwork and mortar, flint, rock, stone and timber.
- iii) Tree loppings, hedge trimmings and other vegetation for disposal.

- 2.2 No other types of controlled wastes shall be deposited, handled or stored on site and, for the avoidance of doubt this licence specifically EXCLUDES the deposit of the following:

a) liquids, sludges or mixtures of solids and liquids.

b) Special waste as defined by Section 17 of the Control of Pollution Act, 1974.

c) Biodegradable materials, such as food, paper, cardboard and packaging waste.

- 2.3 Controlled wastes delivered to the site and which are not permitted by the Conditions of this Licence shall be immediately removed from the site to an alternative suitably licensed waste disposal facility or dealt with in a manner agreed as part of the working *arrangement* by this licence.

Licence Ref No.EA089

3.0 WASTE QUANTITIES

- 3.1 The maximum quantity of solid controlled waste delivered to the site shall not exceed 50 tonnes per day.

4.0 WORKING PLAN

- 4.1 A Working plan shall be submitted to the County Planning Officer within two months of the date of grant of the licence. The working plan shall detail the proposed conduct of operations at the site and shall be agreed in writing by the County Planning Officer. The working plan shall include the following details:

1. An outline of the site preparatory works to be carried out including details of the areas where waste is to be deposited.
2. The procedure to be followed to record waste input at the site.
3. The method of operation to be adopted on site.
4. Environmental Control measures to be adopted including the details to minimise noise and odours emanating from the site and the dust suppression measures to be adopted.
5. Environmental monitoring arrangements.
6. Water pollution control measures including the details of drainage from the site.
7. Procedure to check the authenticity of delivered waste.
8. Procedures to be followed to deal with unacceptable wastes delivered to the site.
9. An inventory of the equipment to be used or stored on site.
10. A plan on a scale of not less than 1 in 2,500 showing the location of the site and the areas designated within the site for the storage of waste.

Licence Ref No.EA089

11. The types and quantities of waste stored at the facility on an annual basis.

13. The procedures for dealing with fires on site.

4.2 The licence holder shall not operate the site other than in complete accordance with the agreed working plan without the specific written prior permission of the County Planning Officer.

5.0 SITE ENTRANCE AND ROADS

5.1 The site road from the highway to the areas used for handling or storing or processing of wastes or residues shall be surfaced with tarmacadam or concrete and shall be kept in good repair such that any crack or pothole shall be repaired within 5 working days. A repair shall consist of the crack or pothole being filled with appropriately sized hardcore and compacted. The surface of the repair will be finished flush to the surface of the road with tarmacadam.

5.2 Site roads and surfaces shall be treated and sprayed with water as necessary to limit dust dispersal. A mobile tank filled with water and incorporating a spray bar shall be available on site during dry periods.

5.3 All reasonable precautions shall be taken to prevent the carriage of mud onto the public highway. If at any time mud is taken from the site onto the highway, immediate action shall be taken to remove it and the site will be closed until such time that the mud has been removed and operations can continue without causing further mud to be deposited on the highway. Highway cleaning equipment shall be available on site for immediate use. (Note: mud consists of any accumulation of soils or other site debris saturated with water and deposited on the highway in such a quantity that the layer of deposited mud is clearly visible on the surface of the road).

6.0 SECURITY AND FENCING

6.1 All reasonable precautions shall be taken to prevent unauthorised access to the site. Details of the security arrangements for the site shall be included as part of the working plan required by this licence.

6.2 A site identification board of durable material and finish shall be displayed at the site entrance location showing:-

a the hours when the site is open;

b the name of the site; name, address and telephone number of the site operator;

c the names and telephone numbers of the person(s) responsible for the site, who can be contacted under emergency conditions during hours that the site is closed;

d the name and address of the Licensing Authority.

6.3 A gate or other barrier shall be provided at the entrance to the site and outside the opening hours specified in Condition 8.1 or when the site is unmanned the gate or barrier shall be kept locked. The design and construction of the gate shall be specified in the working plan required by Condition 4.1.

7.0 SITE ACCOMMODATION

7.1 No handling, processing or storing of wastes shall take place until electricity, water, telephone, toilet and washing facilities have been provided on the site.

8.0 SITE MANAGEMENT AND EQUIPMENT

8.1 The delivery and handling of controlled wastes at the site shall be confined to the following times:-

Monday-Friday 0730 - 1800 hours

Saturday 0730 - 1300 hours

and adequate lighting shall be provided if operations should continue during hours of darkness

8.2 There shall be no deposit of controlled waste or other associated operations outside the hours permitted by condition 8.1 without the consent of the County Planning Officer first being sought and obtained in writing. Outside the permitted hours and during times that the site is unmanned the site entrance shall be gated and locked.

8.3 The site shall be adequately manned and supervised during working hours and a site operator and rubber wheeled loading shovel or appropriate equipment as detailed in the agreed working plan shall be present at the transfer station at all times when waste is being delivered.

8.4 The terms of this Licence shall be made known to any person who is given responsibility for, or control of, the site and a copy of the Licence, suitably protected against damage by the weather, shall be displayed in a prominent position on the site.

8.5 All controlled wastes entering the site shall be visually inspected by the site operative prior to deposit or immediately after deposit to ensure they conform with the provisions of the licence.

8.6 Plant and equipment using the site shall be maintained to a reasonable standard and fitted with an efficient silencing system.

8.7 Details shall be provided as part of the working plan required by condition 4.1 of this licence of the qualifications and experience (including Certificate of Technical Competence, if appropriate) of person(s) responsible for the operation of the facility.

Licence Ref No.EA089

9.0 RECORDS

9.1 Records shall be maintained at the facility detailing the input and export of controlled wastes from the site. The records shall include the following information:

1. The type of controlled waste received and exported from the facility. Waste shall be classified in one or other of the following categories:

- a Construction or Demolition Waste
- b Earthspoils
- c Other waste including tree loppings

2. Number of skips and vehicles carrying waste either entering or leaving the facility each day and the District or Borough Council area in which they originate or in the case of waste leaving the facility, the final disposal site.

3. The registered numbers assigned under S19 of the Vehicles (Excise) Act 1971 of the vehicles entering or leaving the facility carrying waste.

4. The weight in tonnes of the loads referred to in (2) above; or in the event of a weighbridge not being available, the volume of waste entering or leaving the facility which shall be recorded as the carrying capacity in cubic metres of each skip, container or vehicle body.

9.2 All such records shall be made available for inspection at all reasonable times, to authorised officers of the Waste Regulation Authority and a copy of the cumulative records for a month shall be sent to the Waste Regulation Authority not later than the fifth working day of the following month detailing the types and quantities of waste imported to or exported from the site.

10.0 OPERATIONS

10.1 The deposit and handling of controlled waste for transfer shall only take place within areas having an impervious concrete or tarmac base.

Licence Ref No.EA089

10.2 Controlled wastes shall either be stored only in a system of bays or in secure containers. The construction and location of the bays shall be detailed and agreed as part of the working plan required by this licence. As a minimum standard the bays shall be constructed to form a continuous wall at least two metres high.

10.3 Any controlled waste falling outside the tipping bays due to transfer loading operations or accidental spillage shall be collected on a regular and at least daily basis and placed either within the tipping bay or in a suitable container.

10.4 Controlled waste shall not be allowed to accumulate above 0.5 metres below the top of the bay wall and within 0.5 metres of the open end of the wall.

10.5 No plant shall be sited on stockpiled waste and the procedure to be adopted for waste transfer loading operations shall be agreed as part of the working plan required by condition 4.1.

10.6 Waste containers parked on the site shall be stored in a tidy fashion and in an area agreed in writing by the County Planning Officer.

11.0 POLLUTION PREVENTION

11.1 There shall be no discharge of water to surrounding water courses or drainage channels without the permission in writing of the County Planning Officer which permission shall be subject to the approval of the National Rivers Authority. The Licence holder shall also take any necessary steps to ensure that there is no pollution of adjacent water courses, drains or underground strata caused by the disposal operations on the site. In the event of any such water pollution arising as a result of surface water running off or by percolate from the site, the Licensee shall, at his own expense, undertake such remedial action as may be reasonably prescribed by the County Planning Officer.

Licence Ref No.EA089

11.2 Tanks used for the storage of fuels or other liquids should be sited on impervious bases and be surrounded by bunded walls. They shall be of a type and construction suitable for the liquids they contain and shall be labelled to show their contents. The bunded areas shall be capable of containing at least 110% of the largest tanks volume and should enclose all fill and draw pipes.

12.0 ENVIRONMENTAL CONTROL

12.1 No waste materials shall be burnt within the boundaries of the site and a fire at the site shall be regarded as an emergency and immediate action shall be taken to extinguish it. All outbreaks of fire shall be notified forthwith to the County Planning Officer.

12.2 Inspection at a frequency agreed by the County Council as part of the working plan shall be undertaken by the licensee to determine if the site is being used for the harbouring or breeding of vermin or insects. Action shall be taken by the licensee to eradicate vermin or insects if they are found at the site.

12.3 Best practicable means shall be employed to minimise the emission of noise and dust from waste handling operations. During dry and dusty conditions site roads shall be sprayed with water to combat atmospheric dust emissions.

NOTES TO THE LICENCE HOLDER

(1) "The County Planning Officer" shall mean the County Planning Officer for the time being of Hampshire County Council, or such other Officer as the Waste Regulation Authority shall appoint for the purpose.

(2) This licence is granted under Section 35-40 of Environmental Protection Act 1990 and the conditions set out are NOT in substitution for any requirements under the Health and Safety at Work etc Act and the relevant statutory provisions under Schedule 1 of the Act, or any other Regulations made under the said Act, or other Acts of Parliament.
